

Abhijit Jani

DOB- 18-Nov-11

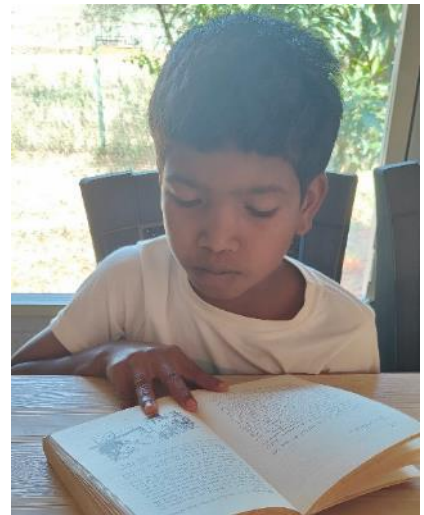

Report for 2022-23 (first term)

My name is Abhijit Jani. I am a student of Auro-Mira Vidya Mandir. I am almost 11 years old.

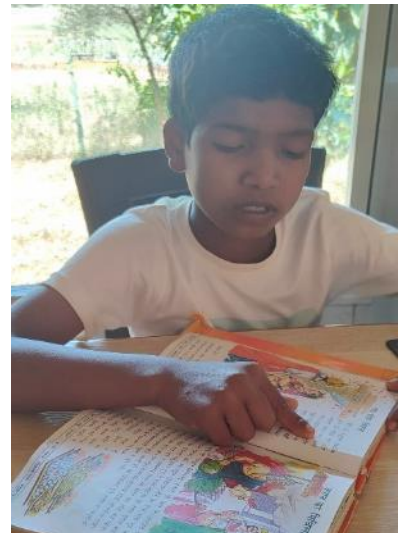

English

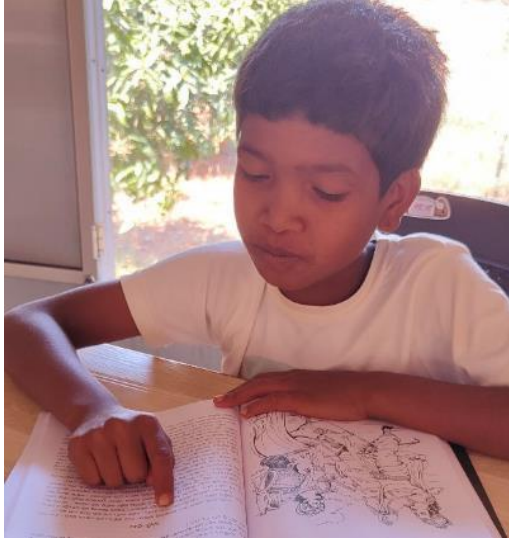

In English class, I am doing class 6 syllabus of NIOS. In English class, we do grammar, free reading, group reading, 'New Broadway' and watch English movies. I like free reading the most, but I do not like group reading because some children read very slowly, and I don't like it. I have read novels like 'Narnia', 'The way of the Samurai', 'Karate mouse', 'Quest of Paradise', 'Charlie and the chocolate factory', 'Charlie and the great glass elevator' etc. On 15th August, we did a theme on the poem Krishna. On Sundays, we recite poems, and also learn new ones. Sometimes I gossip with my friends in the class.

Hindi

At present, I am following class 7th book of *Vasant bhag 2* in Hindi. This book is very easy for me. But sometimes, I don't understand the poems, maybe because I feel bored while reading poetry. I like to go to the library and study alone. On 5th July, we performed two plays and in both the dramas, I played the role of a narrator. Sometimes in the class, I am distracted because I talk to my friends. Also sometimes, when I speak in the class, Didi does not understand me because I speak very fast. I need to improve my handwriting.

Odia

I normally like the Odia class and I am doing the 2nd class book. I can write Odia, but I get confused sometimes. I can understand Odia but cannot speak it fluently. Sometimes I don't like the Odia class.

Social Science

I am doing 7th class book of Social Sciences of Ratna Sagar. We have finished the module of History and we have started the module of Civics. Currently, we are studying Geography and Civics simultaneously and in Civics, I am learning about the State Government. I

learnt about all the districts of Odisha and the current speaker, deputy speaker, members of Odisha Legislative Assembly. I also listen to stories related to the chapters and few current affair topics. For learning more, we go to the library to read Amar Chitra Kathas. We also go to the AV room to watch short videos related to our course like 'transportation of goods by railways, waterways and the road network connection' and 'construction of bridges in China and other developed countries'. We do many question-answers from every chapter. I secure good marks in the Social Sciences tests and very rarely do I get bad marks. But sometimes I don't pay attention in the class.

Science

In Science class, I am doing Physics of class 7th. We have to do many difficult questions in Physics. Earlier, we were doing chapters "Acid, base and salt", "Electricity", "Types of forces" and "Motion and time". I found these chapters easy. We have done many experiments on these chapters and learnt new things. We have made many models like

telescope, motor, turbine, periscope, kaleidoscope, windmill, electromagnet, etc. I obtain good marks in the tests. We do many question-answers, and this helps me to write fast. I like to attend the Science class.

Mathematics

In Maths class, I am doing class 7th of R.S. Agarwal book. Sometimes I face difficulties in chapters like percentage, simple Interest, congruency, etc. But I found the chapters on construction, lines and angles, properties of parallel lines, reflection and rotational symmetry and 3-dimensional shapes were easy. I get good marks in the tests when I am confident in that chapter. Sometimes I get bad marks because I do not revise the chapter thoroughly. Now I am doing the mensuration chapter. I can do better by practising more questions from other books also. Sometimes I get distracted and talk with my friends. Sometimes I like to do Maths and some other times I do not like to do it.

Computers

In computer class, we do Typing master. I like to do computer class. Sometimes, we also do painting on the computer. I like to do typing and painting on the computer.

Dance

In dance class we do many types of dances. We do dance class with Suparna didi and Gauri didi. We have done a dance on Mahabharata theme, Krishna theme, etc. Now we are doing a short dance. Sometimes I like dancing and sometimes I do not.

Art

In art class, I learn painting, drawing and crafts work. I like to do the art class. I do art class with Brishti didi and Suparna didi. They teach us many arts.

Music

In music class I play *tabla*. I like to play *tabla*. At present, I am learning *teental* and *kayeda*.

Games

I like to play. I play football, basketball, volleyball, and fun games. I like to play football the most because my dream is to be a football player.

Shramdaan

In *shramdaan*, I do gardening, school cleaning, hostel cleaning, toilet cleaning and kitchen work. I like to do school cleaning, but I do not like toilet cleaning and gardening. Sometimes, we get a scolding because we sit and start talking.

School Trip

We went for a trip to south India from 17th August to 2nd September. We first went to Simhachalam. After that, we moved to Kanyakumari where we visited Vivekananda rock memorial and Gandhi memorial. In Madurai, we camped at Arvind Eye Hospital and visited Meenakshi temple and then we visited Rameswaram, a pilgrimage centre dedicated to Lord Vishnu. In Pondicherry, I enjoyed myself very much.

All in all, in this trip we went to many temples in which we saw many styles of architecture of southern India and saw huge sculptures of many gods and goddesses. We were travelling by many different modes during the trip.
