

Annual Report of Basanti Krisani

2021-22

DOB- 18th June 2005

Introduction

My name is Basanti Krisani and I am 16 years old. I study in class 12th. The subjects I have taken in 12th are Hindi,

English, History, Political Science and Geography. I am also volunteering with small children. I like to read detective and horror stories. I have read many adventure stories which were very interesting. I have read a thick horror storybook in Hindi, which I liked very much and

finished reading the book very quickly. Now I am reading the book Cleopatra's daughter by Michelle Moran, which is a very good book and is very interesting.

History

I studied History with Annapoorni (Venkatachalam) Didi. I did all the chapters with Didi and after completing the book, I revised with Didi to clarify my doubts. Didi explained my doubts properly. I did my questions and answers with Annapoorna Didi. In History there were some chapters

which were a little difficult for me to understand but after discussing and explaining once again, I was able to understand properly. The first book was easy for me, but the second book had some chapters which were difficult. In History

I liked the chapter on Nationalism the most. When I was solving the previous years' papers of History, I was not able to solve some of the questions and asked my friends and Annapoorni Didi to clarify my doubts. I made lots of effort to solve the history question paper.

Political Science

I studied political science online with Deepika didi. Political Science was difficult for me, but I tried my best to do it properly. In Political Science there were a few chapters which were difficult for me to understand, but after revising with didi, my doubts were clarified. Didi

would send us notes to write which was very helpful. I did the question answers and if I could not do, I would ask didi in the next class. I chose the subject in 12th because I like the subject very much. We get to know the meaning of nation and what is nation. Election part is very interesting. In this chapter we get to know the details of Prime Minister, President and the ministers. How they are elected and how they are removed from their position and the rules that regulates this. I have practised very hard and solved many previous year question papers. I also took the help of didi while solving the papers.

English

I studied English online with Ragini (Saxena) Didi. I enjoyed while studying with Ragini didi. She taught us the format of letter writing, email writing, notice writing and also report writing. We completed the book and started revising with her. We also did the grammar portion and sent to didi by WhatsApp to do the corrections. She taught us enquiry letter, complaint letter and personal letter. I also did many creative writings with didi and enjoyed doing all these activities a lot. I had also solved many question papers.

Geography

I am studying Geography online with Ananya (Roy) didi. Didi teaches us very well. I enjoy studying Geography with her. I am doing the 1st book of Geography. The 7th chapter is very difficult for me to understand. I ask didi my doubts and she once again repeats all the lessons and explains it very clearly by showing us many pictures and also draws for us so that we can understand properly. The subject is very

difficult for me but I am trying my best to learn what Didi has taught us. I solve the question answers and send it to Didi by email for

corrections. I have given tests also. Now I am doing the 10th chapter in which I am facing many problems as I can't hear Didi clearly due to poor network and it gets disconnected again and again. I am giving my geography exam on October'22.

Hindi

In Hindi there were 5 books in all and I studied with Vidyottma Didi and Yogesh sir. They taught very nicely and I would do all the question answers after the class. For my exams

I had solved many question papers and practised by writing but my hands would pain very much when I continuously write.

Games

I play different games such as football, basketball, frisbee, etc. Sometimes we play minor games like base-kickball, bahu-chori, etc. Before playing we always do exercises to loosen our muscles and then take 5 or 10 rounds of the field every day. We do running exercises, jumping exercises and sometimes instead of taking rounds in the field, we run up and down the hill 5 times.

Sports Day

On Sports Day we did marching on the basketball court after breakfast. We started marching at 9:00 am and after that did some exercises and then went to different corners which were organised for all the children. There were 100m and 200m races, long jump, high jump and triple jump for all the children from progress and above. Also, the small children played with balls on the basketball court. Music was played for them so that they would enjoy much more and would stay active while playing and they really enjoyed while playing. I did not participate in these activities, and I was given the charge of overseeing the children who were running 100m and 200m races and noted down their timings. Children also did baton relay and there were matches on that day and also tug of war.

Shramdaan

In Shramdaan, we do all the activities from 6:30am to 7:30am. We do Shramdaan such as kitchen, Toilet cleaning, Hostel cleaning, Gardening and School cleaning. I love doing kitchen work as I cut vegetables with my friends and teachers. In toilet cleaning, I clean toilet, basins and sweep the floor near the kitchen area. In hostel cleaning and school cleaning I clean the campus. I sweep and pick up plastics from all over the place. In gardening Suman bhaiya guides me as to how to do gardening. He gives instructions where to dig, give water and weed.

Programmes

We celebrated many programmes-plays, dances, celebrations and singing. I participated in many of these.

Volunteering

I have been volunteering for a couple of hours in helping the younger children of the school. I enjoy doing this as it gives me something different to do, besides the normal routine of the school and is a way of giving something back to my society.
