

Darshana Gouda

DOB-26-June-02

Report for 2022-23 (First Term)

My name is Darshana Gouda. I am 20 years old. I am preparing for my third year exam of graduation. I love to listen to music - it's my favourite pastime.

Academics

I have just appeared for my second year graduation and I am waiting for my results. I appeared in exams for the last three papers during August this year. The course on Hindi poems was quite tough for me to understand initially, but when I read them again and

again, I really found them easy and meaningful. Some chapters which were very difficult, I studied them with Poonam didi. She used to take a lot of time in teaching even a small topic, explaining it very nicely and in detail. The other subject was novels of Hindi, which I really enjoyed very much. I think I will get good marks in this subject. I studied School Psychology with Pranjal Bhaiya. I like to study with bhaiya, but sometime when I am not able to understand, I don't like to study. I get a little irritated and after this when I try to concentrate then also, I am not able to do it. Sometime when I was not able to get the answer in the course book, I used to take the help of Google. For the assignments also, I am taking the help of Google.

Now I am preparing for six papers for December exams and I have started my assignments of these subjects. I will be appearing for exams for two Hindi subjects, three English and one of Psychology. I love to read the novels of the course, but I am not very interested in the poems.

Volunteering

In the school, I am helping the younger children in Hindi for three hours every day. I like to work with the children, but I am not able to help the very young children who have just started learning the alphabets. I get irritated while teaching them and I am not interested working with them. It's a bit easier working with the older children and I enjoy teaching them. I help them to read and understand the stories and help them to solve

the questions and correct their spellings. I check the notebooks and help them with grammar. With the younger children I help with pronunciations, sounds, alphabets, and other things. I tell them stories and encourage the children to make their own stories, and I try to correct their sentences.

Shramdaan

In the morning at 6:30 AM, I do shramdan with the children. After every month, my duty is changed - I have done gardening, school cleaning, kitchen, toilet cleaning and hostel cleaning. I love to cut vegetables in the kitchen and once a week I have chapatti making duty. I have games with the

games team F, in which I make the children first take five rounds of the field and do exercises; after that, I make them play football. Every Friday I have the duty of checking whether the children have taken a bath and cleaned the rooms, and at 6:15 PM, I have meditation with the older children. After that, at 7:30 PM, I serve dinner to the children.

Games

My favourite game is basketball, and I love to play it. It is one of my favourite pastimes. My shooting is good, and I like to shoot and guard during the game.
