

Divya Jani

Date of Birth-June 01, 2012

Report for 2022-23 (first term)

Projects

Simple Machines

It was a small topic and she showed real interest and gave her best. After the discussions, she wrote the important points and whatever she could understand from the discussions in her notebook. She wrote about the different types of simple machines and the different types of levers and their functions. Using the property of levers as a simple machine; she made a small rice mill called 'Dhenki' in Odia. She used it during her presentation. Her presentation went well.

Our Body Systems

In this project she learnt about the seven systems in our body, their organs and their functions. She learnt about the internal organs and their functions. She took interest in all the activities such as

discussions, drawings, chart making, solving questions etc. In the tests she scored 80% marks. Understanding Skeletal System and Nervous System was a little difficult for her because these systems are a bit complicated and there is a lot to remember. She says that when she will grow up, she will study hard and improve and master the topic.

Countries and Capitals

When we started the project, she already had knowledge of the seven continents and the five oceans. When we moved to the countries and their capitals, she loved to look at the Atlas and identify the names of different countries on the map. She was encouraged by her success in locating the countries in the Atlas and memorised the names well. She took up France for a detailed study and studied about its population, language, food, education, music, painting, architecture, currency, government and history. She needed a lot of help to understand it all and to take down information from the books she read. She needed many revisions to score well in the tests on this topic.

Civilization

She understood this project and her work was neat and clean. She wrote well and jotted down every point neatly in the notebook. She presented her project on Indus Valley Civilization quite well with

proper explanations on religion, occupation, trade, seals, tools, script and their town planning. But there were some facts that she could not explain well through writing though she had understood them. She needed some help in some topics of the project like the decline of the civilization. She

made a chart with her friends and presented in the class. Whenever she used to get a test of objective questions, she scored 80% marks.

Mathematics

Divya shows an eagerness to learn mathematics. She is able to solve the word problems but takes a little time. She is becoming more confident in her ability to complete word problems on multiplication and division, showing her work and writing full sentences when giving answers. Divya often makes calculation errors of subtraction which she acknowledges and laughs at her silly mistakes. While converting unlike fractions to like fractions, she applies the method of

LCM. She can solve sums of addition, subtraction and the short method of doing multiplication and division questions. She has learnt decimal fractions, four operations in expanded form and conversion of fractions. Divya enjoyed the topic on Money. She can convert paisas to rupees and can understand money related questions. At present, she is doing the Book of Class 5.

English

Divya is a very intelligent girl who concentrates in the class and does her works without disturbing anyone else. She completes all the given tasks and gets it checked too. She tries her best to speak in English but when she hears others speaking in another language, she gets distracted and forgets to speak in English. She follows the timetable of her group. On Mondays and Wednesdays, the group goes for free reading to the library. She likes to read fairy stories like Cinderella, Peter Pan and others. She loves reading and has improved. When she tries to read fast then she makes mistakes. On every Thursday there is group reading and she reads

very beautifully in the class. So far, she has read two books: Charlie and the Chocolate Factory and Fantastic Mr. Fox. Friday is the day for grammar and she is doing from the book of Class 4. She is very

particular in doing corrections in case she makes a mistake. Divya likes to read Panchatantra stories and Amar Chitra Katha. The children of the group also practise for the play and all the children write the play and dialogues themselves and present them in the Assembly. On Sundays, it is time for movies and poems. She likes to watch English animated movies like Cinderella, Peter Pan, Alice in Wonderland and other Disney movies. Presently she is trying to memorise the poem 'Who' written by Sri Aurobindo.

Hindi

She is doing Hindi from the book of Class 5 and Gunjan No 2. On July 5, she participated in the play, "Ganga ka Avtaran". In this play she played the role of Mainawati. She enjoyed doing the play because it was something novel for her. She has shown a lot of improvement in her reading. Her handwriting too is better than before. She memorises the songs in Hindi very quickly and also sings very well.

Computer

She likes the computer class and she is doing Lesson 3. She also does painting on the computer in the class. Bhaiya gives her test to see if her speed has increased or not.

Odia

Divya can read and write all the matras. Her handwriting is neat and clean. She can converse and express herself quite well. She has a keen interest in learning this subject. She can sing and act properly. She is very interested in listening to stories.

Art and Craft

Divya enjoys the Art class and she is quite good at it. Her colouring is perfect and her skill in drawing is also unique. She is perfect in doing anything she is instructed to do. She participates in every activity eagerly. In paper folding she has learnt collage, birds, flowers and hanging.

Dance

This is one of her favourite class and she enjoys it thoroughly. She loves to do street jazz but she has also learnt many more dances like

classical, hip hop and folk dance. She learns the easy steps quickly but takes time to learn the difficult steps. Sometimes she forgets the steps while performing on the stage. Now she is learning Bhangra.

Music

Divya sings well. She can sing the alankaras.

Shramdan

Divya starts her Shramdan at six thirty in the morning. Earlier she did Shramdan in the garden, kitchen, cleaning the school, etc. but now she has been allotted to do Shramdan permanently in the girls' hostel. She is helped by Maina and Eramani to finish the work.

Celebrations

Divya participated in the play, "Ganga ka Avtaran" on **July 5** and played the role of Ganga's mother Mainavati. She memorised her dialogues very fast. By taking part in this play, she has improved her expression and her confidence. She sang an Odia song beautifully.

On **August 13**, we celebrate our Chacha ji's birthday. This year we had a storytelling session by Poonam

didi of some stories written by him. She enjoyed listening to these stories and learnt many new things from them.

On **August 14**, we celebrated Baba ji's birthday. He was the person who started schools for every individual child. He encouraged everybody to study and to do something in their life. So, on his birthday, we did Havan and sang some songs for him. On this day, Divya participated in the Havan and enjoyed the activities which were done.

On **August 15**, she celebrated Sri Aurobindo's birthday and

Independence Day in the school. She participated in the play on Sri Aurobindo's life in England. She was the narrator in this play and she did the role with

full confidence and her dialogue delivery was good. She also took part in the dance on the song, "Chakde India". She also did a dance taught by Denis bhaiya with her classmates and really liked it. She also sang a song in Odia taught by Anuradha didi. She was singing the song very confidently.

Trip

The South India trip was an enjoyable one. All the children going on

the trip were counting the days before they would go. And when the day dawned, she packed all her

belongings and excitedly set off. She easily climbed over a thousand

steps to see the Simhachalam Temple. In Kanyakumari, she was amazed to see the meeting of the three Oceans: The Indian Ocean, the Bay of Bengal and the Arabian Sea. The big statue on Vivekananda rock, the boat journey on the Bay of Bengal were also very enjoyable. When she visited Meenakshi Temple, she had a lot of fun in counting

the thousand pillars in the museum with her friends. She says that Puducherry is a lovely place. She liked the food, the accommodation and the atmosphere there. She also enjoyed the meditation in the

ashram playground and the Samadhi. She spent the time on the Paradise Beach happily playing with her friends and got a chance to swim in the Bay of Bengal. After the darshan of Matri Mandir at Auroville, she enjoyed the food in the solar kitchen.

Games

Before playing any game, she does not hesitate to take part in the warm-up exercises. She loves playing basketball with her group. She plays other games as well such as football, volleyball and some fun games.
