

Chandra Muduli

Dob-19-Mar-08

Attendance-183 days out of 183 days

Report for 2024-25 (first term)

Introduction

My name is Chandra Muduli, and I am 15 years old. My mother's name is Sombari Muduli, and my father's name is Dulbha Muduli. In my family, there are six of us. I have one brother and two sisters: one is very small and is starting school, while my youngest sister is also in school. I study at Auro-Mira Vidya Mandir, where my brother and sister also attend. At school, I

celebrate many festivals such as Ganesh Puja, the Mother's birthday, the school's anniversary, Christmas, and others. I also play many games, including football, basketball, and volleyball. The game I enjoy most is football. Now, I am preparing for my exams, having completed exams in four subjects.

Academics

I appeared for four of my class 10th papers in May'24.

The results are as follows: -

English 75%

Hindi 56%

Science 64%

Social Science 52%

I had not completed my syllabus of maths and would be appearing for the same in November'24.

MATHS

I have finished the course and am now preparing for my exam. I take tests chapter-wise and perform well. Some chapters are challenging, so I seek help from Didi

or Bhaiya to understand them better. I love doing Maths because I find it easy to solve the word problems in the book. I revise the course by using previous years' question papers to practise. I also take the full book tests for both the first and second books of NIOS.

GAMES

I enjoy playing games. Before playing, I do many exercises, such as running around the field. I particularly like football because I love scoring goals. I also participate in other games like basketball and volleyball. I make sure to arrive on time for games, and before we start, we always do some running around the field.

Shramdan

I participate in various activities such as gardening, cleaning toilets, tidying the hostel, maintaining the school, and assisting in the kitchen. I particularly enjoy cleaning the school. During school cleaning, I focus on tidying the classrooms and sweeping the paths. In the hostel, I clean the kitchen area and sweep the veranda. In gardening, I like to plough the fields, water the plants, and remove weeds. In the kitchen, I help by chopping vegetables for breakfast and lunch.

Celebrations

At our school, I celebrate many festivals, including Ganesh Chaturthi, Raksha Bandhan, the school's birthday, the Mother's birthday, and Christmas. I particularly enjoy Christmas, when we sing songs and dance. We organise various programmes, such as dramas and musical performances.

However, this time I couldn't participate much because I was studying for my exams. I also celebrate Sports Day, where we participate in activities like cycling, unicycling, and pyramid formations. We have events such as the 100m race, high jump, and long jump. I participated in the 100m race and long jump, and I thoroughly enjoyed all these activities. Additionally, I played a volleyball match.
