

Chaiti Deulia

Date of Birth- March 08, 2012

Report for 2022-23 (first term)

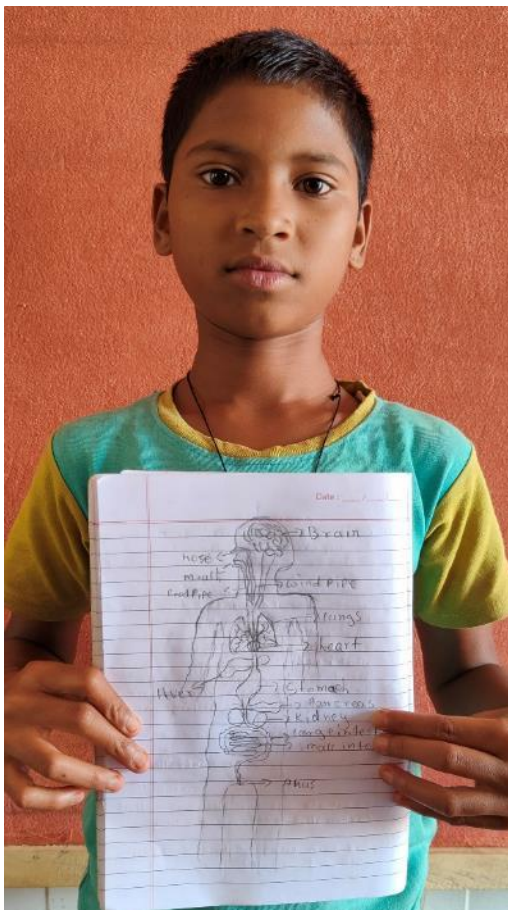

Projects

Simple Machines

Chaiti made a project on this topic and she tried her best to make a good job of it. After we explained the topic to her, she was able to write down some of the points that she recollected. She remembered the different types of simple machines, their work, how they are used etc. She made quite a good project from the information that she gathered.

Human Body

In the project on Human Body, Chaiti found it difficult to understand the Nervous system and the Digestive system. Although she understood almost all the other systems properly but she could not write much on these topics. Chaiti has a good grasp and understanding but lacks concentration, focus and attentiveness. She gave a presentation on the Respiratory system. While she was presenting the topic, unfortunately she could not do it in a confident manner and did not speak in a clear voice. But that did not stop her from trying to give

her best. She had made a clear chart of the Respiratory system. When we give her tasks and ask her to answer some specific questions, she is not able to give answers in a clear-cut manner because she is not able

to learn it properly. Chaiti got almost average and fair marks in the various tests given to her on different systems of the Human Body. Her marks are as follow: Respiratory system-4/10; Skeleton system-10/20; Digestive system- 8/15 and Nervous system -9/20

Countries and Capitals

She has learnt names of the 7 continents and can recognise them properly. She has not only learnt the names of all the 7 continents but she is also able to pinpoint them and identify them on the map too. She is also able to differentiate between the biggest and the smallest continent. She has memorised the names of the countries and their capitals in these continents but she did find it difficult to remember the capitals because she was not able to read all the names properly. She chose Ukraine and learnt all about this country from an encyclopaedia.

She took out the relevant information about this country and found out that Ukraine is in the continent of Europe. She also learnt about its religion, clothing, agriculture, history, language, food, flag, currency, etc.

Her presentation about Ukraine was quite good. We made them take part in a game and she was able to identify and tell the names of the countries.

Civilization

When we started the project on civilization, Chaiti was excited. She was very curious and showed eagerness to learn about the life of the early people; what they used to eat; where they lived; etc. She also asked questions to clarify her doubts. She helped her partner to make the chart. She did well in the presentation and her diction was clear. Her presentation was about town planning and she gave information about the drainage system, how and where it was built. She got average marks in the test given to her.

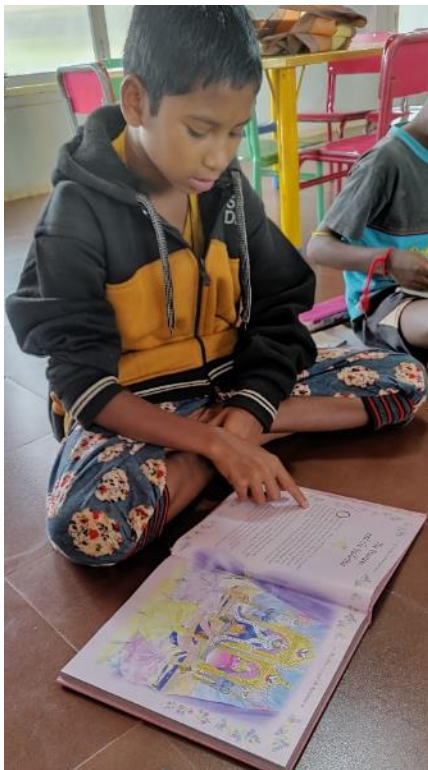

Hindi

In the Hindi class, she has finished doing Rimjhim Book 5 and will now take a test of all the the chapters one by one. For more practise she is attempting to learn from Gunjan Book 2. She is enjoying this book because she is able to understand the book very well. Besides these two

books she is doing grammar from another book. On July 5, she took part in a play called “Ganga ka Avtaran” and played the character of Ganga maa. She thoroughly enjoyed the act of entering through the locks of Shiva, which is the traditional method by which Ganga came down to the Earth. But Chaiti took a long time to memorise her dialogues. She likes to do free reading in the library and prefers to study alone. Her handwriting is neat and clean.

English

She is showing a great aptitude for language skills and does them with lots of interest. She participates in all the activities with great enthusiasm. She has completed the grammar book and textbook of Class 2. She was able to understand most of the stories and her reading, writing and comprehension skills are slowly improving. She is able to read and comprehend simple storybooks, answer simple questions

based on the story and make meaningful sentences. She expresses her thoughts clearly and speaks with confidence. She completes each task given to her on time and is sincere in whatever she does.

Mathematics

Chaiti shows interest in learning Mathematics. Her concepts of all the four operations i.e. addition, subtraction, multiplication and division are clear; but she still takes a lot of time to apply them where required. She finds it difficult to remember multiplication tables and makes many calculation mistakes especially when she is solving multiplication and division problems. She has completed the textbook of Class 4. She understands the concepts but we have to explain it to her many times. Her retentive memory is weak because she forgets the concepts after a few days and

they have to be refreshed in her mind again. She has been taught international place value, number periods, roman numerals, factors and multiples. She has made good progress in converting unlike fractions to like fractions and decimals to fractions. She can convert paise to rupees and rupees to paise and solve addition and subtraction sums and word problems related to money concept.

Odia

She loves this class and can read and write in Odia quite well and concentrates while in the class. She finds it difficult to speak to others. For special days she practised some short plays with her classmates.

The Odia class is held once a week on Saturdays. She needs to concentrate more in the class to improve her speaking and writing skills.

Computer

In computer class, Chaiti likes to do painting and makes shops and buildings. Her typing speed is a little slow. She enjoys the computer class and she is making an effort to increase her typing speed. She is presently doing Lesson 1 and Lesson 2 in Typing Master.

Shramdan

The Shramdan starts after Yogasana from 6:30 am to 7:30 am. She cleans the Girls' hostel during this time and she cleans the staircase, the floor and the toilets and fills water in the filter. She finishes her own room cleaning and clothes washing on Sundays. She does Shramdan happily without any problem.

Music

In the Music class she is learning various songs and taals. She loves this

class because she is able to learn whatever is being taught very fast. She is learning how to play the harmonium but finds it a little difficult to play. She enjoys singing the sargams accompanied by the harmonium with her friends.

Dance

Chaiti is a good dancer and likes to do classical dance. She listens carefully to the instructions given in the class. She has learnt classical, folk, hip hop and basic jazz dance till now. She has a good understanding of the rhythm. She performed very well on the stage and is an ever-smiling child. On July 5, she participated in a classical dance on 'Sri Ram Chandra' and on August 15, did a jazz dance on the song 'Chak de India'. She enjoys the Dance class and picks up the steps very fast.

Celebrations

July 5: Chaiti played the role of Ganga in the play "Ganga Ka Avtaran". She acted very confidently with no mistakes whatsoever. She spoke her dialogues with great confidence. She also sang an Odia song taught by Papa ji and danced on the song "Sri Ram Chandra Kripalu Bhajman".

August 11: She tied Rakhi to one of the children who is in the Bliss group. She also sang some songs on Raksha Bandhan and listened to some

short stories told by the Aspiration group children. She enjoyed the Raksha Bandhan celebrations.

August 15: Chaiti played the role of the narrator in the play on Sri Aurobindo's life in England. She acted very confidently and was able to remember the dialogues in just three days. She also took part in the dance on the song "Chak de India" taught by Denis bhaiya.

Trip

Chaiti along with the other children of the school went on a trip to South India. She went to Kanyakumari, Rameshwaram, Simhachalam, Madurai and Pondicherry. In Simhachalam, the children had fun

climbing more than one thousand steps to visit the temple. In

Kanyakumari, the children stayed at Vivekanand Centre and loved the food that was served at the Centre. They also went by a small boat to see the Vivekanand Rock and the Statue of Tiruvallvar. In Madurai, they stayed at the Arvind

Eye hospital. After this, the children went to Puducherry and stayed at the Delhi House. The food at the Ashram was good. All of them went

for a swim in the Paradise Beach. Chaiti liked the garden in Matru Udyan because it was full of flowers and plants. She liked visiting the Samadhi as she enjoyed the ambience of the place.

Games

She is a part of Group F during Games and the Games period is from 4:30 to 5:30 p.m. Before starting the games, the children are encouraged to do Warmup exercises so that they are even more energetic. Before starting the games, they do meditation. Chaiti plays different games like football, basketball, base kick ball and some fun games. Her favourite game is football.
