

# Vikas Gouda

DOB-24-April-08

## Report for 2022-23 (first term)

### *Introduction*

My name is Vikas and I am 14 years old. The name of my school is Auro-Mira Vidya Mandir. I like to study in school. My behaviour is good with the teachers. I like to do all the subjects properly. In my school I celebrate holi, diwali, school's birthday, sports day and many more such occasions. I also like to play games like football, basketball and volleyball.

### *Shramdan*

I like to do shramdan. We do shramdan like gardening, hostel cleaning, toilet cleaning and school cleaning. We do it every day. In gardening we do things like cutting grass, ploughing and many

other things. In toilet cleaning we clean our toilets, in hostel cleaning we clean the hostel, and in school cleaning, we clean our group. I enjoy doing it.

### *English*

I like to study English. I have just completed the NIOS Book 1 and started the second book. I have only completed one chapter. That is 'the only cry'. I am giving a test after completing two or three chapters. I have also learned to write notices, messages, and letters. When a test is given, I do it well. We had celebrations on 5<sup>th</sup> July and we presented a play. The name of the play was 'Ouch'. We did another play on 15<sup>th</sup> August. The play's name was Sri Aurobindo. We also celebrated Teachers' Day. On teachers' day I enjoyed seeing the teachers dance on stage. We practised a quiz, speech, and writing about Sri Aurobindo. The thing I liked to practise the most was the quiz.

## *Hindi*

I like Hindi class. I have finished both my NIOS books. In the books, all the chapters were easy for me and when I gave a test of the 2 books I did very well. My handwriting is much better than it was 6 months earlier. A Didi had come. She taught us how to concentrate, made us read books in the library and also taught us how to behave in the class. Now in Hindi I can answer every question. I have given a test of the whole book.

## *Science*

I like science class as well. I have completed the first book of

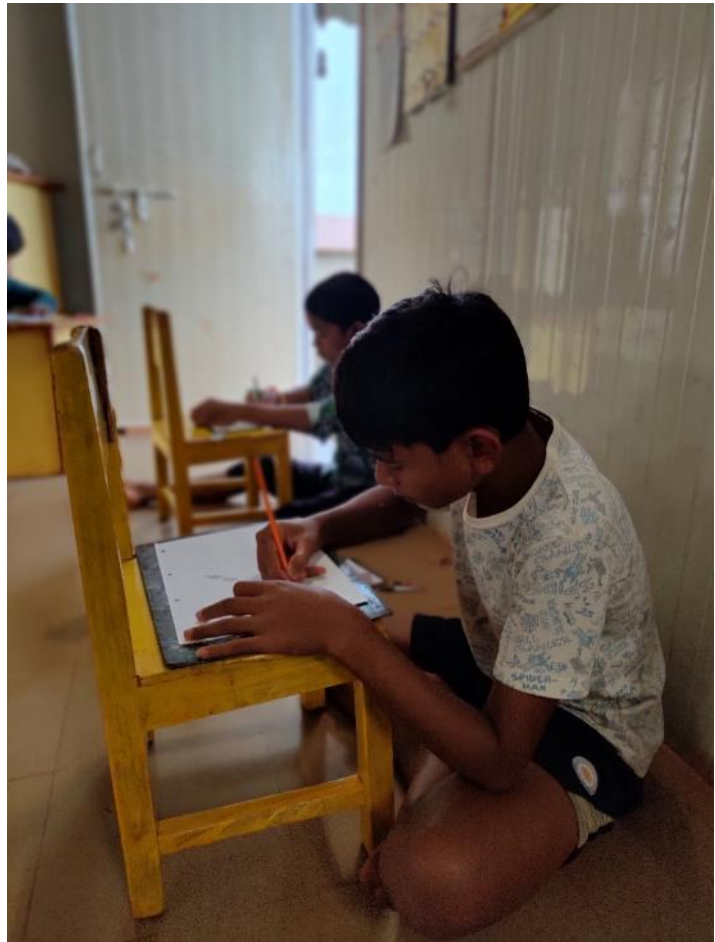

chemistry. Now I am doing the second book of chemistry and there is only one chapter left . We have also done Biology with Meeta Didi. Now I am doing Physics. In physics, I am on the 15<sup>th</sup> chapter and there are only four chapters left to complete the syllabus. In science I get good marks, but my understanding is not so good. I do my question answers alone, and when I can't do some of them, I ask Didi or Bhaiya. I did a practical with Raghu Bhaiya. He told us to make a circuit and showed us an experiment which I liked the most because there was a pop sound.

## *Social Science*

In social science we are doing 10<sup>th</sup> class 1<sup>st</sup> book of NIOS. We have completed half of Civics and completed the whole of geography. We had answered all the questions and we wrote our own notes and then revised and gave the test. I enjoyed answering the test given in geography because I found it easy to understand. We also read national geographic to increase our general knowledge.

## *Mathematics*

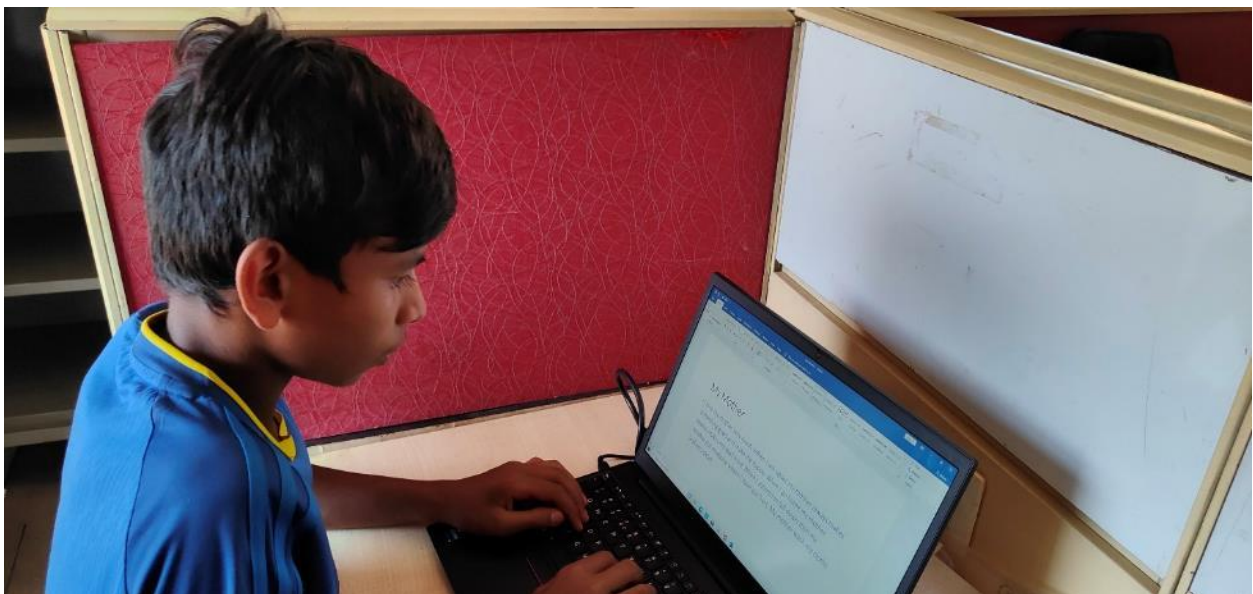

I like to do maths. I have finished both of my NIOS books. Now I am preparing for my exam. So, I solved a question paper where I got 48.5 out of 85. I got less marks because I had not revised the formulas of trigonometry and mensuration. The chapters which I found difficult were the chapters which were new for me like quadratic equations, Arithmetic progression, Instalment

buying, Trigonometry and some parts of construction. Now I am revising the chapters which are new for me in RS AGARWAL. In the first book I got good marks but in the second book I did not get good marks. The marks I obtained in the 1<sup>st</sup> book were 32 out of 50 and in the 2<sup>nd</sup> book I got 28.5 out of 50.

### *Computer*

I love my computer class. In computer class I like to type. My teacher is Lalu Bhaiya. I love computer class because there are many things to learn in typing. My typing accuracy is good but it is a little slow. I have to make my typing speed faster. I have done drawings on the computer and also made designs.

## *Games*

I like to play games. My favourite game is football. I also play games like volleyball and basketball. I like to play football because I like to kick the ball up in the sky. Sometimes I also like to play volleyball. In volleyball I like to start the game first because if I start first then our team always wins. I also like to play basketball. In basketball I like to shoot baskets.

## *Trip to south India*

I loved the trip to Tamil Nadu. First, we went to Kanyakumari and stayed there for 2 days. There we were shown the statue of Vivekananda and the rock where Vivekananda meditated for three days. Then we went to Rameswaram, where we saw a rock of Ram's bridge which was floating. After that, we went to Madurai, where we saw the Meenakshi temple. We also went to Pondicherry where we went to see the Matri mandir. Then we went to a garden named Auroville

garden. There I liked the maze made for us. Then we went to the garden of Mansi didi. When that was done, we went boating. Finally, we went to the Auroville beach. We stayed in Pondicherry for 9 days. Then we came back to Kechla.

Celebration
