

Khagendra Muduli

DOB- 12th April 2008

He is the eldest and tallest child in Gratitude group. He keeps working slowly and trying. He takes his time and gives the work for checking. In some subjects he does not get his doubts cleared.

While speaking he always stammers and thinks a lot. He has to gain confidence because after answering anything he says, "No, it is wrong". Sometime he is shy in talking.

MATHS

He is doing 4th grade mathematics. He is very slow but does his work and solves problems very well and correctly. He sometimes makes silly mistakes and does the corrections of the problems as many times as it gets wrong. He asks his doubts and gets the concepts very fast. He faces difficulties in solving the predecessor and successor in six and seven digit numbers. He needs a lot of practice and is given special attention.

SCIENCE

When he is told or asked questions, he is shy and afraid to answer. He stays quiet in the class and does not ask his doubts. He writes when he has been told to write and even then writes very little. During the topic **body system** he had selected **excretory system** for presentation, together with Stuti. He made chart and presented in front of the Humility group. During the **water** topic he had presented about what water is made of and the molecules present in water. He had chosen **Lily** and **Dahlia** as the flowers in the **flower topic**.

ENGLISH

He has written the English report himself.

I read fairy tales, Macbeth and Jataka tales the most. During group reading I liked reading Charlie and the chocolate factory and Kunnu the cub. My reading speed is very fast. While reading I am very careful because there should not be any mistakes. I like to pronounce easy words because I am unable to pronounce the difficult ones. When I am doing comprehension then sometimes it's difficult for me to understand. When I do questions and answers from the

book then I like to copy from the textbook. I like to do the questions and answers because it is very easy to do. Sometimes I don't like to do very difficult ones. In dictionary work I find it easy to find the words and when I'm unable to find it, then I copy from my friends. My handwriting is very good. During my English class I don't speak in English all the time but I do speak a little. Otherwise I speak in Hindi

SOCIAL STUDIES

Khagendra is a child very different from other boys. Though he is very slow, he always comes for checking. In the chapter The Regional Kingdom, he looked for information on Pallavas. He has problem in writing answers and understanding. He needs to concentrate more in class and he will improve.

HINDI

He is now doing 4th class textbook. He understands the basic stories. He reads and understands stories of the book. He is unable to do answer from it. He does not ask for help but comes to us for notebook checking. He has completed 2nd class grammar book and is now doing 3rd class grammar.

Odiya

Khagendra picks up a little from activities.

COMPUTER

Khagendra often gets confused. He starts exploring the computer in the middle of ongoing topic. He likes to draw in Paint. He has to improve his mouse handling. He is now learning typing. He types his stories in MS word.

PROJECTS

- I drew the map of Australia.
- Then I went to Leduguda with Ruth didi to show village.
- I played Australia's coin game, and after that I learnt 'Happy Birthday' songs in native Australian language.
- I also learnt small songs about going out.

ART

Khagendra is good in crafts and his work is neat and beautiful. Khagendra does not always concentrate. While making drawings, he can't imagine and draw. He only copies from the drawing books. He likes to draw funny pictures and cartoons but he draws them very well.

TABLA

Khagendra doesn't have control on his fingers. He is unable to play in beat. He has learnt to clap in Teentaal. He is learning to count the beats.

TRIP TO ANDAMAN

My trip was to Andaman Islands. We went to fishery museum, archeological museum, naval museum, Marina Park, Gandhi Park, Radha Nagar beach, cellular jail and Chatham saw mill. We saw beaches and gardens. I liked the beaches because there were Shells and trees. I enjoyed the whole trip because I saw many kinds of ships and ferries. I also liked to eat fish in Andaman. In the Cellular jail I felt very bad because the British treated the freedom fighters very badly.

GAMES

He is good at basketball and very often scores baskets. He likes playing football the most. He knows the rules of the game. In case of penalty against his team, he becomes the goalkeeper. He takes nice rebounds in basketball. He comes to the field in time, does running and exercises with his sports teacher. The exercises depend on his mood. He plays basketball, football and other fun games. In basketball he practises the drills. He needs to practise his shooting, as he misses his shots. He uses all his strength in kicking football.
