

Report of Mansi Gouda for 2021-2022

DOB- 21st October 2004

Academics:

I completed my 12th from NIOS. It was covid time, so we are having online classes. Teachers from Delhi and also The Mother's International School, New Delhi, were teaching us. I enjoyed studying with them. I studied English with Pranjal bhaiya, geography with Ananya (Roy) Ma'am, political science with Deepika (Khanduja) didi, Data Entry I studied on my own and History with Annapoorni ma'am. I enjoyed studying geography a lot because the way ma'am taught me was really interesting. She would give me tests, which I could do quite well. I liked studying political science, but the timings were not suiting so sometimes I would be sleepy. We gave a lot of tests in political science. I got a lot of scolding from Deepika didi because half the time I would be sleeping and whenever she asked me any question, I would just look at the book and answer, which she never liked. But when she would give a test, I would do it quite well. She made us prepare for the exam very nicely. In the exam I attempted all the questions and was able to write all the answers quite well. History was also good. We did a lot of question answers and I had done previous year papers also and we had discussed a lot. We were not able to cover the entire book as it had 3 parts. 1st and 2nd we had studied well, and the 3rd was done very briefly. I got 72 in English, 76 in Geography, 69 in Data Entry, 61 in History, and 54 in Political Science.

I have now taken admission in B.A (Hons.) in English from IGNOU. I will appear for my first-year exams in December 2022.

Games:

I love playing Games. Basketball is my favourite sport. When my friends don't pass the ball to me, I get irritated. I also like to play Volleyball as I play it quite well. I like to play in the centre because we get a lot of chance to hit the ball.

Shramdaan:

In shramdaan I did toilet cleaning, gardening, school cleaning, hostel cleaning, and kitchen. I enjoyed all the shramadan but kitchen duty was the most interesting because I love to cook different dishes. Sometimes we would cook on our own. In gardening- we planted many vegetables. Gardening is quite interesting. The only problem was in the summer when it gets hot to work even in the mornings. But we never complained and did what had to be done. In school cleaning we had to mop all the groups and sweep the entire area of the school and that too was quite enjoyable. Similarly, in hostel cleaning we had to clean the entire hostel. Many

children don't like toilet cleaning, but I never felt that way because it is our duty to do it.

Celebrations:

We had many celebrations in our school during the year. No outsiders were allowed to come and see. I participated in many dances and plays.
