
Rohit Jani

Date of Birth - 22nd September 2006

April 2018 - March 2019

➢ Hindi

In Hindi I am poor in spellings and reading. We are doing 7th class book. We are doing grammar. And we are having a separate class for spellings. I like to read adventure stories in Hindi.

➢ English

I have improved in reading, handwriting and spellings. I like to read ghost stories and adventure stories.

We are doing 8th class grammar in English.

➢ Odia

Odia is a boring class. I am not good at Odia. I can't read and write.

➢ Math

In math I am doing 7th class simple interest and I am studying with Mani didi and srinath bhaiya.

I am good at some chapters.

➢ Science

In science I get bad marks but I remember what is taught in the class. Sometimes I get good marks. I study with Srinath bhaiya and Ambika didi.

➢ Games

In games play football and basketball. I like to play football. It is my favorite game. In football I like to do passing, heading and shooting.

In rainy season I like to play basketball with Pranjal bhaiya. In exercises I like to do jumping, push-ups, sit-ups and German drill.

In the morning I can't do some asanas like butterfly posture and scorpion posture.

❑ Festivals

We have mango, pitha, stilt, hunting and many other festivals in the village.

On festivals we go home at noon and we dance and have a feast and when we are tired we go to sleep.

❑ Written By Teachers

Social Science

He is an intelligent boy and has started studying hard.

His short question answers are fine but he can't answer the long questions.

He is trying to develop his writing scheme. He has started studying the class 8th book.

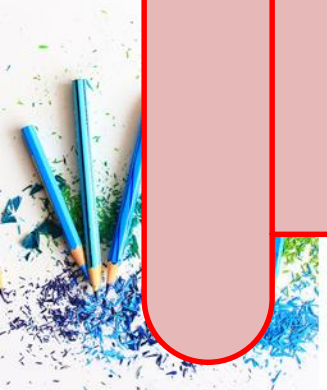
He enjoyed history and his performance was better.

❑ Science

He participates in activities. Sometimes he participates during discussions and shares his ideas and thoughts, but at other times he is lost in his thoughts.

He cannot concentrate for a long time. He studied about the sources of light, types of objects, types of lenses and mirror. He could not remember the laws of reflection- images between two mirrors if the two mirrors are set at different angle.

He was confused about the solar eclipse and lunar eclipse. He can't express his thoughts in writing.



❑ English

Rohit has improved his reading. Now he is confident in reading himself. His spellings are fine now but he needs to improve his writing.
He never asks teachers when he is not understanding something and he does it wrong and gives to checking.

He has learnt letter writing but he is not confident. In the group during class, his mind is somewhere else or he will be sleepy. So afterwards when didi gives questions, he is not able to answer. He had to read a story and tell it in class. He tried to narrate but he needed help.
Books he read this year-

- Kung fu
- The donkey on the sand and other stories
- The goblin's hat
- Treasure island

❑ Hindi

He does not work hard and is always behind the others, but is not bothered. At the same time, he is a kind and obedient child.

When we ask him for his notebook for checking, he replies happily ‘I’m doing’.

If we go to him he hides his notebook and gives it later. He comes to teachers for explanation of story or for help in grammar. He does most of his writing work wrong.

He reads and speaks correctly. He likes to do question answer from the book rather than doing grammar.

He is doing extra class to improve his written work. He needs to work hard. He likes to read ghost stories in library time.

❑ Odia

Rohit can remember for a short time. In the last month he paid attention in class. We hope he will develop in Odia language.
