

Vikas Gouda

DOB- 24th April 2008

Vikas is a sharp boy. He understands and catches the concepts fast. He is intelligent but needs to work harder. He writes well and answers when asked any question. He works quietly but when he has doubts, he asks. He performs well in the tests but sometimes makes silly mistakes. He needs to increase his concentration span.

MATHS

Vikas has just completed book 6th and has started book 7th. He was given a test from the whole of book 6th. He performed well but had problems with mensuration. He enjoys doing math if the concept is clear to him and if not, he doesn't pay much interest. He gets distracted very quickly.

SCIENCE

During the topic **human system** he had selected **reproductive system** for his presentation, together with Jagdish. They made a chart on reproductive system and presented it to the Humility group. The presentation was good but there were some questions asked by Humility group that they were not able to answer. During the **water** topic he chose to take soluble and insoluble and did an activity taking many different glasses with water and soluble and insoluble substances and mixed each substance in

separate glasses. He made a chart and presented this activity to the Humility group. He had taken **hibiscus** during the **flower** topic. He had written a rhyming poem on hibiscus.

ENGLISH

He has written the English report on his own.

I have read the following books: - Vasilisa, Snakes don't bite, Eight O'clock stories and Magic flute, etc. I read the following books during group reading: -Charlie and the chocolate factory, Kunnu the cub and George's marvellous medicine. It's very difficult for me to pronounce some words. I can understand the stories of the book when I read. Sometimes I can't write the difficult spellings correctly. My handwriting is not so good and I have to improve it. I can write the questions and answers myself. I can find the meanings of the words very quickly from the dictionary. In English class I speak both the languages Hindi and English. In language games I like to play picturika.

SOCIAL STUDIES

He is using 7th class RATNA SAGAR textbook. He found Geography easier compared to History. In geography he studied about Globes, Maps, Solar system, India and the Natural Vegetation and Wildlife. In the chart work he studied about the Himalayas. He finds History interesting and at the same time boring, He faces difficulty in answering the book questions. In the activities class he found out about Gurjara-Pratiharas and in the class he explained whatever information he had found.

HINDI

Whatever work is given to him, he does it quickly- like memorising, dictation or creative writing. By September he had completed 4th and 5th grammar books by memorising and he also did the exercises. By March he has done 6th class grammar book and 10 chapters of Basant bhag 1. He studies enthusiastically.

ART

Vikas is keen to do crafts and does it well. He does his work very neatly and with joy. But he needs to be more punctual.

TABLA

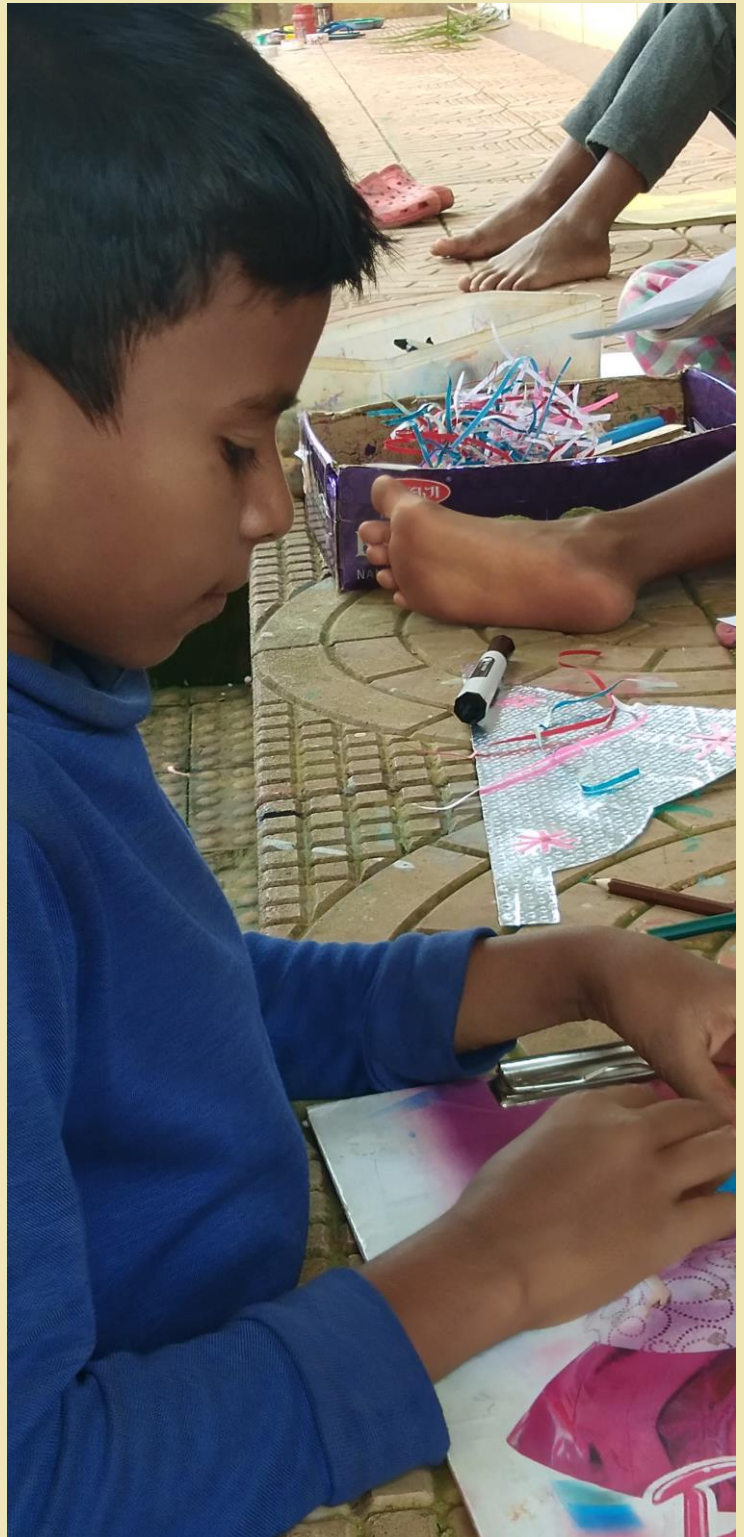

Vikas is good at Tabla and he is keen to learn. Sometimes he is unable to capture the little phrases taught in the class. He is learning Teentaal.

Odiya

Vikas can read well. His language skills are quite good.

GAMES

He is very good at football and he is always enthusiastic. He likes to lead his team. During games he comes punctually and practises shooting baskets with his friends. He is good at scoring baskets from far. He runs while playing the game. His friends sometime want to go for plucking fruits in the forest, but he doesn't want to go and just plays football on his own. Sometimes while playing, he gets angry.

Sports day

I was in circus corner. I learnt to walk on tyre and on the balancing bar. I also participated in cartwheel. I was feeling scared of falling while walking on the thin bar. I was walking forward and backward on the bar. I participated in yogasana and my asana was and elbow stand and peacock pose.
