

# Vikram Jani

DOB-30-Jan-09

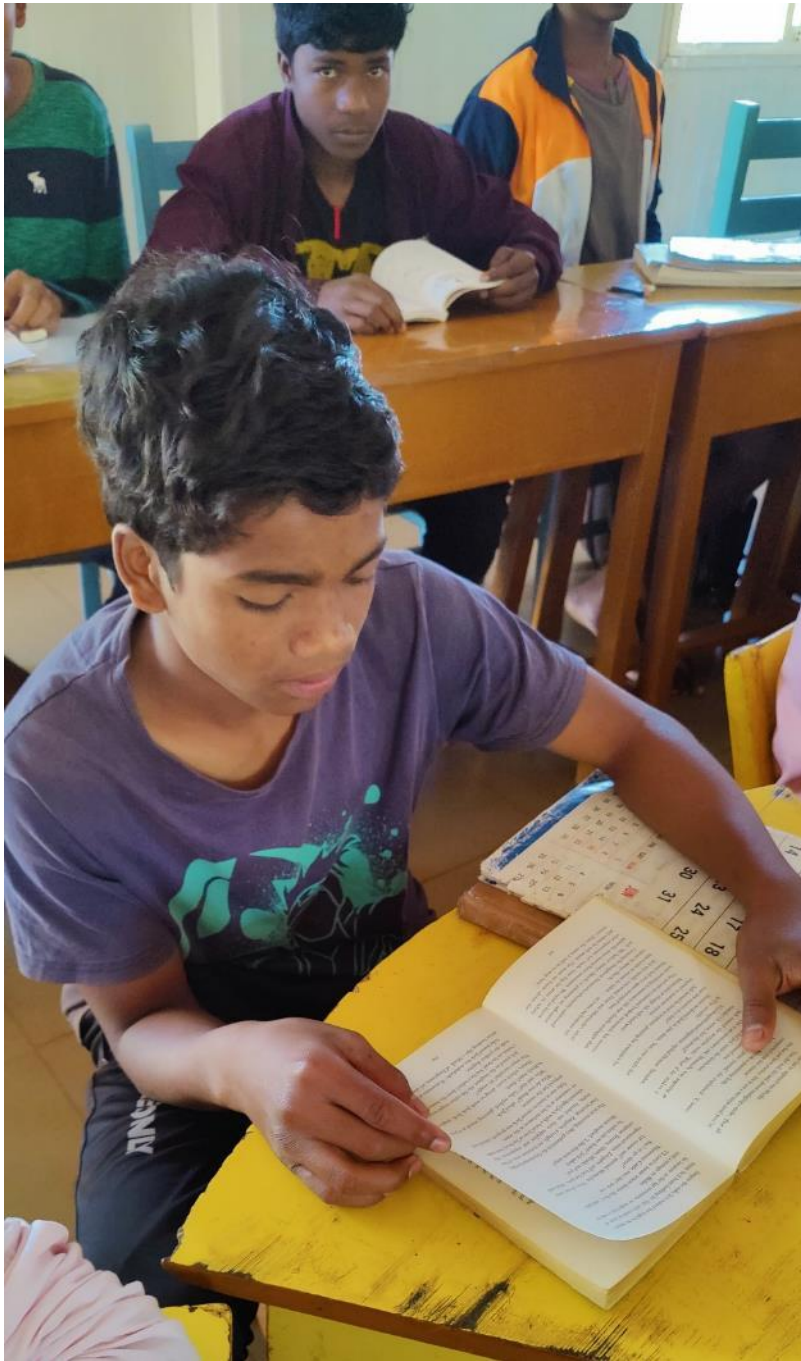

Report for 2022-23 (first term)

## Introduction

My name is Vikram, and I am a student of AMVM School. I am in the Humility group. I can understand almost all the things taught to me. I score good marks in all the subjects. But I have to improve my handwriting and memory power.

## English

In English, I have finished the first book of class 10<sup>th</sup>. Now I am revising for the test. I have scored good marks in all the tests. I have also started the second book and I am on the chapter 'Caring for others'. when Didi teaches me, then I am able to understand. I also do grammar. In grammar I have learnt active-passive voice, direct - indirect speech, letter writing, message writing and notice

writing. I have to improve my grammar in English. My handwriting is very good in English.

## Hindi

In Hindi, we have finished the whole course, and are revising for the exams. We do many activities in Hindi class. They are free reading, solving the questions, group reading, etc. We also do grammar, where we have done many things like nouns, pronouns, conjunctions, synonyms, etc. In this book, I felt that all the chapters were very easy and I scored good marks in all of them. In this course we have mostly done the questions and answers.

In the middle, a teacher named Poonam Didi had come over to teach us Hindi, and she taught us grammar, made us read textbooks, free reading, etc. My handwriting is good and I can write fast. I can also read the texts properly.

## Social Science

In Social Science I am doing History, where we are doing a chapter about the medieval world. We have finished Geography. In Geography, I scored good marks in all the

chapters except one. In civics also I score good marks and can understand the chapters properly.

## Science

Now I am doing physics and I am studying the chapter of light energy. I am able to understand the chapters properly. I have scored good marks in all the previous chapters. In this chapter, I have done many experiments such as refraction, reflection, dispersion of light in seven colours, etc. I have finished the first book of chemistry. Now I am doing the last chapter of chemistry- Carbon and its compounds. In this subject I have scored good marks in every chapter except Metals and non-metals. I am not as good in chemistry as I am in physics. I have also started Biology. In this subject, I have done two chapters. I have given the test of the first chapter. Meeta Didi had come and taught us biology. Raghu bhaiya had come and with Bhaiya I did many experiments like electrolysis, plants also respire, making circuits, etc. I liked the experiments very much. In science my understanding is very good, and I am able to do the calculations very fast.

## *Mathematics*

In maths, I have finished the class 9<sup>th</sup> book. Now I am revising the whole book for my test.

The book was very easy for me as I could understand the chapters easily. I am also doing online classes with Rakesh Bhaiya. He made me do some chapters like

Number system, Polynomials and factorization of polynomials, and Factorization of algebraic expressions. I can understand them very easily and can solve the questions given by him. I like maths very much. I have to increase my calculation speed.

## *Odia*

In Odia we do many things such as reading books and textbooks, listening to stories, writing stories, learning songs, etc. Our teachers sometimes show us videos related to the chapters or festivals, tell us jokes, etc. They also ask us to give speeches about some specific persons such as Sri Aurobindo.

I can read fast and write fast but I have to improve my handwriting.

## *Computer*

Our computer class is on Sundays. In this class we mostly do typing to increase our typing speed. We also do painting, PowerPoint, etc. I have to increase my

typing speed.

## Art

In art we mainly do painting, paper folding, drawing, etc. We make many things such as pen stands, wall hangers, ceiling hangers, etc. We also make some beautiful decorative things for the coming festivals and special occasions.

## Shramdan

In Shramdan we do many types of works, such as kitchen, toilet cleaning, hostel cleaning, gardening and school cleaning. Among this, I like school cleaning the most because it finishes quickly and I have time to finish my leftover homework.

## *Sports*

In sports I play many types of games like football, basketball, volleyball, etc. I like to play football the most. In football, I do many tricks. Before games, I always do my exercises. I run around the field and then I go and play. I also like to play basketball but sometimes I get bored when my teammates don't give me passes. I like to play volleyball. In this game I like to do the services. When my teammates don't play nicely, then I get very angry and irritated.

## *Celebration*

In my school I celebrate many festivals. I do many programmes. On 5<sup>th</sup> July I did a play named 'Ouch'. In this play I took the role of Sri Jodchand Ghataomal. I did the play very nicely. On 15<sup>th</sup> August I did a play on Sri Aurobindo. In this play I took the role of Aurobindo Ghosh. I had to remember a lot of dialogues.

Before 15<sup>th</sup> August, I had many activities like speech, quiz, the first prize and I got a bottle as a gift. On the 15<sup>th</sup> of August I did a dance on the song 'Vande Mataram'. This dance was taught to me by Denis Bhaiya.
