Urvashi Gouda

Date of Birth: 24th April 2009

March 2018 – April 2019

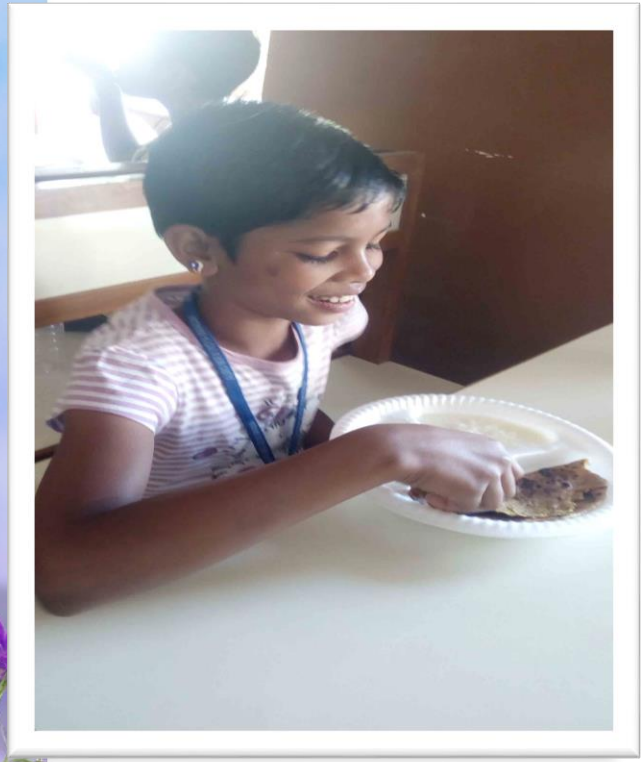
General Behavior:

Urvashi is a sensitive and an affectionate child and her general attitude towards life is optimistic. She has the ability to discriminate the good from the bad.

If anyone troubles her; she handles the situations herself; sometimes she just scolds them and does not pay attention but at other times she reacts very strongly.

She tries her best to do her work the best she can and she has shown a progress in the academic field. She has worked hard to improve in all subjects.

Projects



Science Toys:

Urvashi used waste materials to make science bas ed toys. She made Tik-Tak and a TV and taught her friends to make them as well. She wrote the procedure of making these toys in her own journal neatly.

Food and Health:

She was told about the nutrients of food and food substances and their impact on our body. She came to know the causes of diseases – both communicable and non-communicable diseases and their symptoms. She studied about food preservation, food spoilage, an d food preparation. She enjoyed collecting, grating and eating mangoes. She responded to ma ny questions correctly. She also shared that her favorites dish is Kheer.

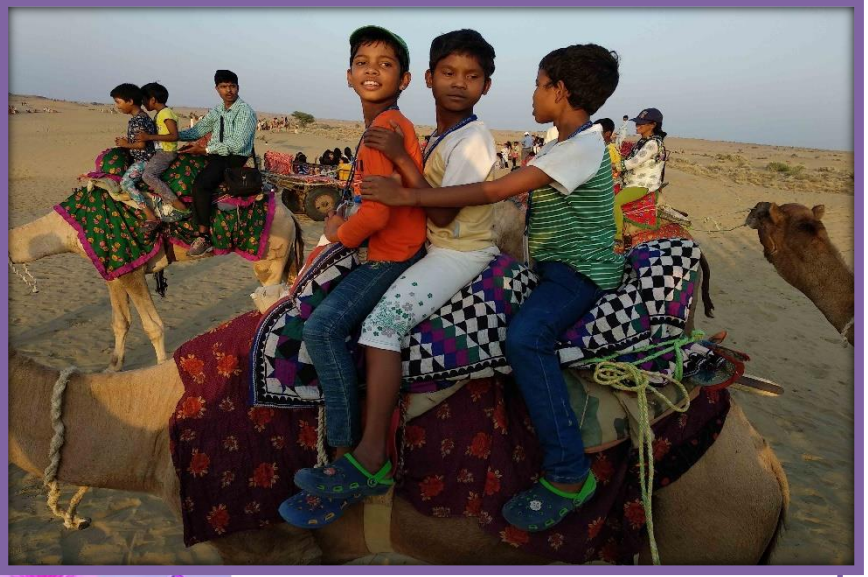
Clothes:

Urvashi studied about the importance and usefulness of clothes in our daily life and that they differed according to professions, seasons, festivals etc. She learnt the sources of clothes and learnt how to distinguish between different fibers in clothes.

She made the model of a girl from Haryana and dressed her in costumes of Haryana.

House:

She learnt about the different types of houses found in different areas of India. She decided to make an Igloo and she made it independently.



The Rajasthan, Agra and Delhi Trip:

Urvashi collected the historical information and facts related to different places that the children were to visit and made posters.

She remembered all the facts of the forts, lakes and other tourist places of Rajasthan, Delhi and Agra. She was keen to visit the new places and enjoyed watching the videos.

Birds:

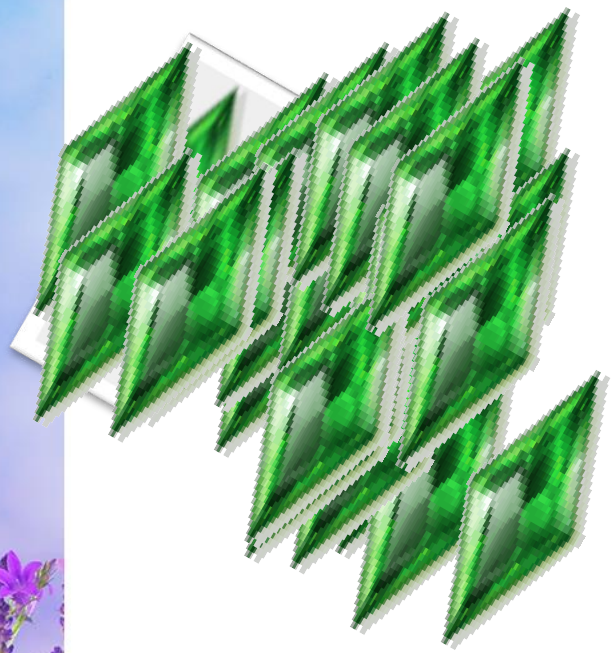
She wanted to research about Maina and Parrot and she loved to find the facts about them from different books. She really enjoyed making drawings of these birds on charts. In the test she got 18 out of 20.

First-Aid:

Urvashi decided to learn about fractures and also wrote in the journal about it. She enjoyed learning about fractures and gave many tests on this topic. She is an active girl and was able to give answers to the questions when asked. She made charts on this topic.

Soil and Conservation:

The children were told about how to conserve the soil and the different types of soils. She made drawings on the charts and wrote about the topic on them. She also gave tests on it. She went to see the water erosion near the school with her teacher.



Rocks and Minerals:

Urvashi chose her friend Stuti to help her and studied about sedimentary rocks. She made charts taking the help of her friend and did cutting and pasting on the chart. She did not give any tests on it because she was absent. She also could not go to collect the different stones near the reservoir.

Air:

She did experiments to show that ‘air has weight’ using two balloons, a stick and thread. She did this experiment with Khagendra. After collecting the materials she needed, she performed the experiment in front of her group children and explained the procedure to them. She also wrote the steps of this experiment on the chart.

Mathematics:

Urvashi is currently doing mathematics from the book of Class 5.

She is an intelligent girl and learns the conceptsbut she is a slow learner.

Most of the time even though she does a lot of sums she is reluctant to get her notebook checked.

She enjoys playing math related games and can do the simple calculations mentally.

She has a good understanding of the word problems.

She is now on the chapter of Fractions.

Her work is neat and legible.

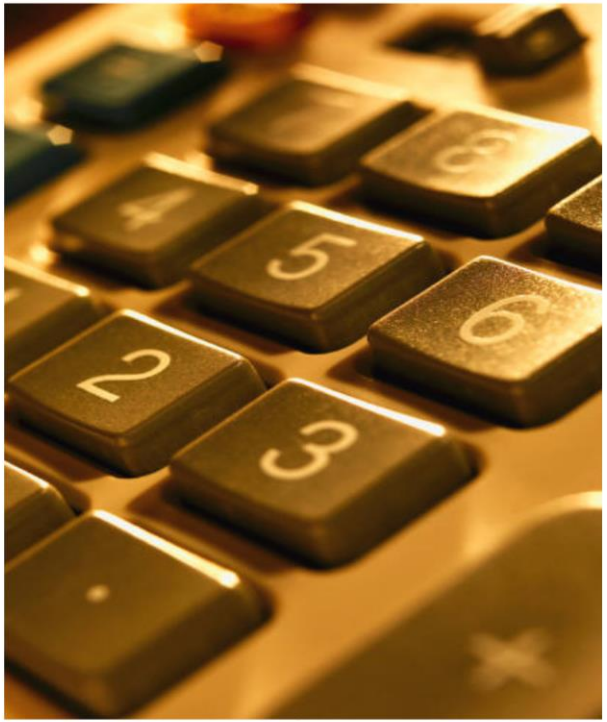
Computer:

Urvashi likes the computer class.
She enjoys paintings that she
makes with the help of MS Paint.

She sometimes needs help in
performing certain tasks.
She knows how to shut down
and start the computer.



Oriya:

Urvashi can identify all the alphabets in Oriya with Yuktakhar independently.

Her sense of understanding is good and her hand w riting is very clear. Now she is reading the book of Standard-II.

Hindi:

She is a bright girl but sometimes she does not concentrate in class.

She is distracted and continuously looks here and there. She can read and understand quite well. She makes small spelling mistakes and her ha ndwriting is neat and clean.

She is doing Class 5 book in text and Class 3 book in grammar. She likes to do grammar and most of the time she is correct in her answers.

English:

Urvahsi's reading, writing, comprehension, spelling is good in this subject.
She participates in all the activities of English with interest.
She writes neatly and listens carefully in the class. She is good in creative writing and is keen to listen to stories from her Didi's.
She is able to express her thoughts and ideas fluently in English.

She understands the grammatical concepts of nouns, article, adjectives, and genders, singular and plural. She answers the questions related to grammar spontaneously. Now she is on Book 5 in grammar. In this session she has done many plays in English. She loved to learn long dialogues and delivered them in a loud, clear and confident voice. Her pronunciation is good.

ENGLISH

Art and Craft:

Urvashi is eager to make new things in art class. If she is interested in making anything,
she comes quietly to the class;
arranges the required materials and using cutting, folding, coloring and pasting of paper finishes making the pretty things she wants.

She doesn’t need any help and finishes her pending work with a lot of concentration. She decorates them beautifully with vibrant colors.

Sports, Games and Yoga:

In games and sport, Urvashi needs to be more attentive and alert.

She needs repeated instructions to do exercises to increase strength, stamina and the agility of her body. She is interested in playing fun games. Once in a week, she practices basketball and tries to improve her dribbling, passing, throwing and shooting skills.

Her favorite game is dosball. Early morning, she joins the yoga
class and tries to do various postures and asanas.

Celebration and Festivals:

On the School Foundation day, Uravashi participated in the play “Price of gems” as a narrator with keenness.

She remembered the dialogues easily and narrated them confidently on the stage.

On the Environmental Day, she planted Ashoka trees in the school campus and Dalda trees outside the school. On August 15, she took part in the play “Jagao Mere Desh Ko” with the Humility group children as Samaya.

She was confident in her role but forgot a few lines in between. On Janmastami, she took part in the Shyamantaka Gem play as Jambubati and Suryadev ..

Celebration and Festivals:

On Ganesh Puja; she helped in directing, writing the script a nd organizing the play for her friends and was in the role of Parvati. She chose gorgeous costumes for herself.

She was interested to learn “Ganesh Pancharatna stotram” a nd memorized it correctly. In the comedy play she put in all her effort to make the audience laugh.

For December 31, she acted on a joke of teacher and student. She was the History teacher in the play. She remembered her dialogues properly and acted nicely. On the Mother’s Birthday, she participated in the play, “Jagat Janani Shrimaa”. She had the role of a teacher who narrates the story. She needed the help of her teacher to improve and better her voice modulation and actions. Finally she was good on the stage.

Dance:

She is interested in dance and picks up
The steps quickly. She always tries to
perform better and practices a lot for that. She
participated in the Bharat natyam
dance and other group dances and danced quite well.

Music:

She tries to play the best in the flute class Her blowing is not too good but she is
confident in all the seven notes.
She is able to do a few exercises too.
In September, she joined the music
workshop and participated in the
orchestra.
