Report for 2022-23(first term)

Academics

I was preparing for second year exams. Nigel bhaiya and Neha didi had come to Kechla for a short

period of time and I took help from them to study some of the

difficult parts of the subjects and also studied with Pranjal bhaiya. History was difficult for me to remember so I also took help from YouTube videos to remember the dates. I have total 10 subjects and have given five out of them and five are left to be given. The subject which I gave this time are:

BEGC- 105 American literature

BEGC- 107 British poetry and drama: 17th and 18th centuries

BEGC- 106 Popular literature

BEGC -109 British Romantic Literature

BEGC –108 British literature 18th century

Volunteering

I have classes in the afternoon and whenever I am not there, I inform some older children to take care of my class. In computer class I make the children do typing, sometime painting and make them write in word. I have one more class of music on Sunday afternoon. Now they are learning Kayada which I had asked Ganesh bhaiya. Great singer Pt. Shantanu Bhattacharya and his family had come to visit our school and children had learnt some songs with them, we also learnt some Taals and rhythm with him, and

also heard his life story. We have festivals and on that day I always manage the music and sound systems.

Games

In sports we play all the games- football, basketball, volleyball and Kabaddi and now it is rainy season so in the village people are having matches so I and one of my friend (Jagat) are going to play football with them. When Pranjai bhaiya is there, we have more fun in basketball. Twice a week Mondays and Saturdays I have games turn and on Sunday I have Chapati turn. I like to play football so I make all the children play football and we get excited and interesting in playing and so play till 6:00 pm in the evening but our actual time is till 5:00 pm.
