

Sushila Kamar

DOB-07-Aug-04

Report for 2022-23 (1st Term)

name is Sushila. I am in my 1st year of graduation. I have selected English Honours as my subject of specialisation and there are eight subjects to be covered in the first year. Out of these eight subjects, I have completed nearly four with support from Sandeep sir and Pranjal bhaiya. I enjoy having classes with them, but I feel nervous to ask my doubts in class. I find it easy to understand the concepts but find it tough to memorise them.

Volunteering

I've been volunteering to teach the "Peace" group for the last two years. They are the youngest students (3+ age) in the school, and I enjoy guiding them. They are all really very cute and obedient children. I have taught them many songs- about sanitation and hygiene, about the different colours and counting from one to ten. I also make them do a lot of activities such as drawing, cutting and pasting papers and origami. We give them pictures in which they place beads on the border. They enjoy doing this a lot. We make them watch cartoon movies like "Tom and Jerry", "Chhota Bheem", "Pingu the Penguin" and "Pink Panther". They enjoy watching these movies.

Games

My favourite sport is basketball, in which I like shooting the most. I rarely miss any basket and I am an expert in shooting three pointers. I dislike running in general but while playing I run a lot.

Shramdaan

For many months, I had been guiding the cleaning in the girls' hostel but my duty has changed. I had my duty in the kitchen, and I enjoyed doing the kitchen duty a lot. After every one month we change our duties. I have changed my duties three times this year and now I have the hostel cleaning duty. Everybody is obedient towards me and thus I don't have to scold anyone.
