

Report for Ratnesh Kudubi

DOB- 30th December 2009

Report for 2022-23

Ratnesh has been a student of Auro-Mira Vidya Mandir and studied in Class 8. Despite facing significant challenges in his personal life, Ratnesh has displayed commendable abilities and achievements. Ratnesh's journey has been marked by adversity, as he lost his father at a very young age and was abandoned by his mother and left in the village at the age of 5. Despite these hardships, he has shown resilience and determination in pursuing his education at Auro-Mira Vidya Mandir.

Ratnesh's decision to commute from home to school, foregoing the convenience of staying at the hostel where most students reside, was probably the beginning of the end. This choice demonstrated his non-commitment to his studies, due to the lack of external pressure from siblings. Ratnesh's attendance record of 234 out of 365 days last year is a proof of this as most

students have a cent per cent attendance in our school.

Academically, Ratnesh has excelled, particularly in English, where his proficiency is commendable. His love for literature is evident from his interest in reading various novels, including the Harry Potter series. Furthermore, his exceptional progress in the academic syllabus, having completed more than half of the Class 10 syllabus, even though he was in class 8 is impressive. He has been lagging behind in Maths as he

could only complete the syllabus of Class 7 Maths.

Outside the academic realm, Ratnesh showcases his talents in music, playing the Tabla and keyboard with skill and passion. Additionally, he exhibits considerable talent in sports and physical activities. His aptitude in football, athletics, gymnastics, skating, and unicycle riding exemplifies his versatility and enthusiasm in extracurricular pursuits.

While Ratnesh has demonstrated remarkable abilities, it is essential to acknowledge that he faces challenges in maintaining discipline when it comes to regular and punctual attendance at school. However, with the right support and encouragement, we believe that he can overcome these obstacles and continue to thrive academically and personally. However, his decision to drop out has been contrary to this. We can only hope that he takes a break year and then joins any mainstream school next year, for which we can always provide financial support.

As Ratnesh celebrates his accomplishments and looks ahead to future endeavours, we wish him all the best. We are confident that with his determination, talents, and dedication, he will carve a bright and successful path for himself.
