Pramila Muduli

Date of Birth - 18th August 2008

March 2018- April 2019

Pramila Muduli

Pramila always carries a sweet smile on her face which shows her happiness towards all the activities she does. Whenever she has been told her mistake, she accepts it happily without any argument. She likes to share her problems with her elders and solve it. She also shares with the teachers whenever things go wrong and she can't do anything about it. She also feels happy when problems are resolved. She likes to come to school every day, well dressed. She arranges the shelves and cleans the group in her turn. She never depends on others for her work. Sometimes she does satisfactory work in studies. But she needs to work hard to do better. Pramila lost her father in March this year and tries to take care of her three younger siblings.

Pramila Muduli

Project

Pramila is good. She takes interest in learning new things but often starts talking. She did well in the given tests for botany. She has improved her handwriting. In a group of 13 children she was not fully focused. Though she kept asking questions and loved participating in the discussions, still she didn't show any improvement in writing skills. In civics and geography tests she gave a very poor performance.

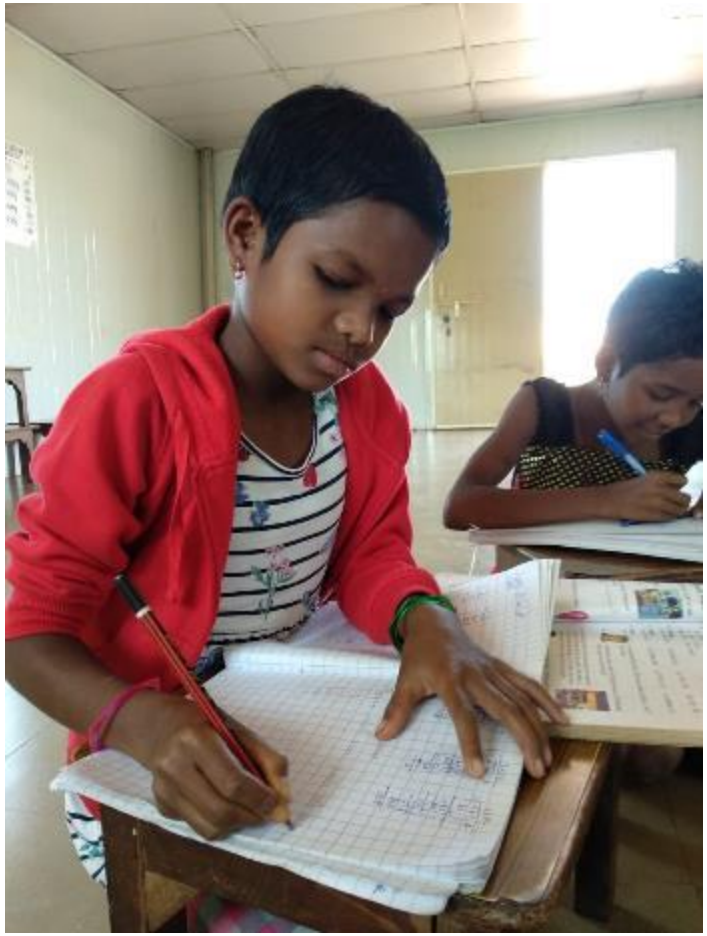
But now we have made two groups. She seems to be very serious about her studies and doing the best amongst all six children. She can make proper notes of the important points and helps others in doing question and answers and in written work.

Pramila Muduli

Maths

Pramila is doing 5th grade mathematics. She concentrates in the group and participates in discussions. Whenever she starts any exercise, first she looks at the examples and tries to understand on her own.

She has finished the concepts of geometry, perimeter, area, fraction, decimal and measurement. She can independently do 4 operations in fraction but sometimes she is confused while doing division. She finds more difficulty in decimal division but after more practise has learnt it properly. She is very good in converting the distance, mass and volume into different units. In geometry, she can use the ruler and protractor to measure the correct angle.



Pramila Muduli

Music

She is sincere in the class but her fingers are too thin for the flute holes.

She can’t produce the proper sound of the notes. But she manages and is happy to be in the path of improvement. In the music workshop in September she learnt some new things and participated in the orchestra.

Pramila Muduli

Art

She attends the art class with interest and makes different types of pictures such as animals, human figure, flowers and vegetables. In human figures she mostly makes girls in the form of cartoons.

Doremon is also her favorite drawing. Her notebook is neat and clean. She gives satisfactory drawings at the end of the class. On 25th December she made a snowman in craft with her partner. She didn't take much help of the teacher.

Pramila Muduli

Dance

Pramila enjoys the dance class.

In the class, she was excited and very concentrated on dance. She always tries to do her best and practises a lot.

She has sense of rhythm but can't remember the sequence of whole dance. On Independence Day she had joined in dance on Rang de basanti song. She also participated on 31st December.

Pramila Muduli

Sports

In sports time she runs to the field with a lot of enthusiasm. She enjoys doing different exercises and running. Sometimes she also leads the group for exercises. She has good team cooperation during games. In football and basketball sometimes she misses some good passes but doesn't mind if anyone scolds her for that reason.

Next time she tries her best not to repeat the same. She also has love for other games such as base kickball, Dodgeball and Kho-Kho. She likes cycling and once a week she practises it. Now she has to practise more and manage on uneven roads.

Pramila Muduli

Her sports day experience:

On 18th January we played kho-kho. While playing kho-kho I couldn't play nicely because our team was not playing nicely. On sports day morning, we had batten relay. Because I felt tired I couldn't run fast. In 200m race I was excited and I ran fast and came third. In musical chairs when music started we ran and when music stopped we sat down on a chair. I could not run because I was tired.

I am participating in Hoopla dance. After a long practise I can take the hoopla from my waist to the neck. Now I can throw Hoopla up and bring down to my hand. I can do hoopla on my neck and my arms. Now in walking pyramid I can also do hoopla. I feel I am good at hoopla dance.

Celebrations

15th August- Pramila was a daughter of a simple family, with so many questions about her country. She nicely played her part in the drama. She did bhangra dance on the song Rang De Basanti, and sang- Rastra Aaradhan and Lab pe aati he Dua banke.

Krishna Janmastami: She was Sudama's Wife in the drama.

Ganesh Puja: She played sargam on her flute.

Rakhi: She made rakhis for her friends and tied to Rukmani.

For 31st December she acted on a joke where she took the role of a daughter who was totally black in colour. This made the audience laugh. She was happy with her role. But she didn't have so many dialogues.

Pramila Muduli

On Mother's birthday she participated in the play "Jagat Janani Shrimaa". She played the role of a teacher who narrated the story. She had a good number of dialogues which she learnt by heart. At the beginning she had problem with a few words but slowly she learnt it well.

Finally she delivered her dialogues fluently with action and proper intonation. She had been always receptive towards the suggestions given by the teachers for acting. She also liked her costumes a lot. After the play she was given a small worksheet on this play. She wrote some answers correctly. Mostly she got correct answers in her dialogues related questions.

Trip

Her trip experience

I liked the Rajasthan trip. I was not tired in the long trip. I liked Gulabpura, Jodhpur, Delhi and Jaisalmer. I also liked Akshardham, Qutab-minar, Rashtrapati Bhawan, and Lotus Temple in Delhi.

I behaved properly during the trip. I did a mistake in Rajasthan when we were coming from a temple, I was not walking in the line and a motorbike passed near me. I was scared. My physical health was fit. I disliked Kachori. I want to go on trips again.

Pramila Muduli

Computer

Pramila enjoys making drawings. She puts her own imagination to draw different things. She is curious and uses different tools for her drawing.

Hindi

She is a cheerful child, always laughs and makes others laugh. She does her work on time and never wastes time. Her handwriting is good and she understands many things and does them by herself. She is very interested to do the grammar book.

She is in 4th grammar book. She has just started and she has covered up language, gender, verb, and case. In class 5th book that has 24 chapters, she has just covered 12 chapters. She is also interested in reading. She can read the stories and understand them. She has read many stories and also tells the stories to the children. She helps the weak children in her group.

Pramila Muduli

English

Pramila is very keen to read. She loves the fairy tales very much. Whenever she will go to the library, she will pick up her favourite book Cinderella. She can understand the books. Her writing has improved. Her spellings are not good but she tries. She enjoys doing grammar but sometimes doesn't understand. She is good at telling stories, she can create herself and write. She also loves to do dramas with expression. She is very keen to learn new songs and sing. She does her homework regularly. She cannot concentrate for long and she becomes very restless. She tries to speak in English with her friends. The books she read this year-

The magic flute folk tales

Tiny tot- best of fairy tales

The magic of disney story book collection

Way to go noddy the cloud castle

The stilton and the Spanish pance mission

Odia

Pramila likes to read and write very fast, as a result she makes many mistakes. Pramila has completed class IV book.
