Report for 2022-23 (first term)

Social science

In Social Science we study History, Geography and Civics. We have covered all the chapters of History. In Geography, 12 chapters are completed and 4 chapters of Civics are completed. Our teachers are Bhavna didi and Bikanti didi. They teach us by showing videos and charts while teaching Geography and History. When didi teaches us by drawing, writing and making flow charts I understand better but I still take time to memorise them. Now I am learning about the State Government in Civics. I have

understood about elections and composition of Legislative Assemblies. I learnt the names of the 30 districts of Odisha. I have to get better in writing answers and improve my comprehension of questions. During Social Science class, we go to the library to read 'Amar Chitra Kathas' on some days- like once a week or twice a week.

English

In English class we do many activities such as group reading, dictation, grammar and free reading. I like free reading the most because we get to read many different books. I have read a few books such as 'The Dragon Prophecy', and books of 'Geronimo Stilton'. As for the comprehension part, we are studying from the Oxford book of class 5. Now I am doing the eighth chapter of the book. We read the different stories and unseen passages given in the book and then do the question and answers given at the end of each chapter. I enjoy reading these stories given in the book.

Hindi

Now I am doing class 2 book of 'Bhasha drishti'. I was doing class 4 book earlier, but I was unable to do. So didi again gave me the class 2 book. On 5th July i.e our school's birthday, I did a Hindi play named 'Ishwar' (God) and 'Vidyarthi Jeevan' (STUDENT LIFE).

In both the plays, I played the role of a sevak (guard). Sometimes I pay less attention during the class. I like reading Hindi storybooks and also listening to stories in Hindi. I need to make my handwriting beautiful and the letters a little smaller in size.

Mathematics

In maths class we do maths from the book. I am doing book 5 and currently doing the 8th chapter i.e Measurements. My maths teacher is Bikanti didi. I find difficulty in solving the questions and word problems. The chapters on 'Time', 'Measurement' and Fractions were the most difficult for me.

Music report

In music I learn flute. Our flute teacher is Mani didi. I have learnt the sargam. I continued learning flute but gradually lost interest, so, now I do gardening instead of playing flute during our music class.

Science

In Science, we are studying from the book of class 7. During the class we do a lot of experiments. We have studied about acids, bases and salts. In this chapter I understood that acids have a sour taste and bases have bitter taste. We have also learnt about light, electricity and now we are learning about motion and time and in this we are solving numericals. I take time to solve them as I find difficulty in dividing large numbers.

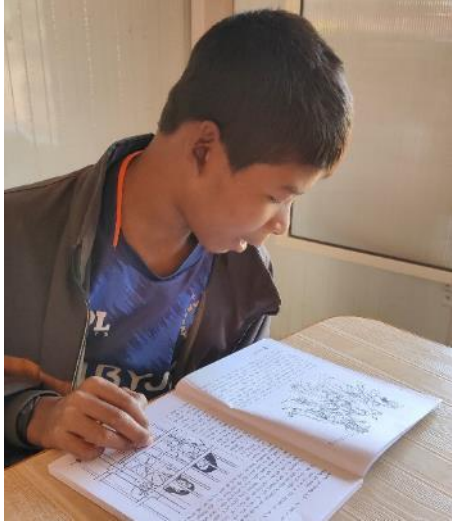

Games

During games time, we do running, exercises and play various games. We go to play our own games after running and doing exercises as we've got different games on each day. We play games like football, basketball, volleyball, and frisbee. I like playing football the most.

Shramdaan (Work Offering)

During Shramdan time i.e from 6:45- 7:30 am, we do various activities. These are gardening, toilet cleaning, hostel cleaning, school cleaning and kitchen work. On our kitchen turns, we go to the kitchen at 6 o'clock in the morning and help in cutting vegetables for lunch and breakfast and help in preparing breakfast. In toilet-cleaning, we clean the toilets, bathrooms and the washbasins. I like the kitchen shramdaan the most.

Odia

In Odia class we study with Papaji and Anuradha didi. During the class, I try my best to learn Odia properly from them. I still need to learn recognizing of the alphabets.

Computer
