

# Bhagwati Krisani

**Date of Birth – August 18, 2006**

**Report for 2022-23 (first term)**

Physical

Education. My

favourite subject is Data Entry. Presently, I am preparing for my exams. Along with my studies, I volunteer by teaching English to the younger kids. I enjoy teaching, storytelling and staging plays with them.

## *Introduction*

My name is Bhagwati Krisani and I am 16 years old. My favourite hobbies are playing and dancing. I am in Class 12 and my subjects are: English, Data Entry, Geography, History and

## *English*

I have almost finished the textbook. Only one module remains to be done. I have finished almost all the questions and answers of the chapters but the grammar still needs to be done. Although all the stories in the textbook were interesting but I enjoyed “The Case of Suspicion” the most. I have understood all the poems clearly. Some chapters had comedy while others gave us an idea about how to take decisions about the future.

## *History*

I have finished Module one of the History book and I am attempting the question answers of all the

chapters. Rachna (Bansal)didi and Annapoorni didi from Delhi, areteaching me online. and PranjalBhaiya gives me lessons in person in Kechla. Annapoorni didi is teaching me Module two and three while Pranjal Bhaiya is helping me with Module five. I have taken an open book test of two chapters of Module one with Rachna didi. I have yet to take a test for the second and fifth Module. I love all my teachers as they are giving me lessons in a way that I can comprehend clearly. I attempt the questions and answers and scan and send them to my teachers; who in turn correct them and send them back to me. Whenever I have doubts about any concept, my teachers always explain them to me very patiently.

### *Data Entry*

I have finished almost half of the book and taken a test of four chapters. I like taking these tests as I love this subject and am able to score quite well in these tests. I enjoyed doing all the chapters and was encouraged to ask any doubts that I might have. I got

information about many short cut keys on the computer and also learnt how to use them. I also improved my typing speed. After doing this subject, my knowledge of computers has increased considerably. I was able to draw a picture in Word, a task given to me, though I had to take the help of the teacher in the initial stages. When my teacher sent a second diagram, it was easier for me to finish the task. Initially, I found it difficult to memorise the shortcut keys. But “Practise makes one perfect”; so I did a lot of practise and mastered them eventually.

### *Physical Education*

We have yet to start this subject as I am not going to sit for this exam this year.

### *Geography*

I have not started studying Geography as I have opted to sit for this exam next year.

## *Games*

I do exercises and running every day before games for warming up. I play all types of games but I like basketball the most. Though I am not able to play football properly but still I

have told myself that I will not give up trying. The teachers give us all the instructions and we follow them so that we are able to give our best. So far, we have been taught dribbling in

football. Sometimes I also play volleyball and frisbee. On Saturdays, I teach basketball to some younger children. So far I have tried to teach them dribbling and have told them the various ways in which a foul can be done. I do not come to play on Wednesdays as I have to go for Kitchen duties.

## *Shramdhan*

In Shramdan, we work in the kitchen, help in toilet cleaning besides doing hostel cleaning, gardening and school cleaning.

In the kitchen, I help in cutting the vegetables for breakfast and lunch. In toilet cleaning, we clean the toilets and basins. I also help in sweeping the fallen

leaves and throw the garbage in the dustbin. In gardening we plant vegetables after clearing and cleaning the beds where the vegetables are to be grown. I help in watering the plants, digging, removing weeds and cutting the grass when it grows very tall. In hostel cleaning, I help in sweeping the verandas, the stairs and the roads. Besides this, I also help in clearing the cobwebs and cleaning the drains. In school cleaning, we sweep the roads, classrooms and the library.

## *Festivals*

I participated in a play on Hansika and her brother.

After that, I tied Rakhi. I performed a dance with my

classmates and other young friends on the

Independence Day which I really enjoyed. I also took part in two dances on Ganesh

Chaturthi: "Deva Shree Ganesha" and "Bappa Banjo".
