

Gupto Kamar

DOB- 14-Aug-07

Report for 2022-23

Introduction

My name is Gupto Kamar and I am 15 years old. My school is Auro-Mira Vidya Mandir. I like to play football.

Hindi

I like the Hindi

class. I have finished books 1 and 2 of NIOS. In the book, all the chapters were easy for me. When I gave the tests from book 2, I did well. I have now given the test for the whole book in Hindi. My handwriting is much better than earlier. A Didi has come to Kechla and she taught us how to concentrate, made us read books in the library and taught us how to behave in the class. Now in Hindi I

can solve every question.

English

In English class, we have finished the 1st book of NIOS and now we are doing the 2nd book. In the 2nd book, I am currently studying chapter 4. I am doing the tests of 1st book and I am also doing grammar in the class. In grammar, I have done direct to indirect speech, verbs, message writing and letter writing. Sometimes I go to the library to read some English storybooks and I like it.

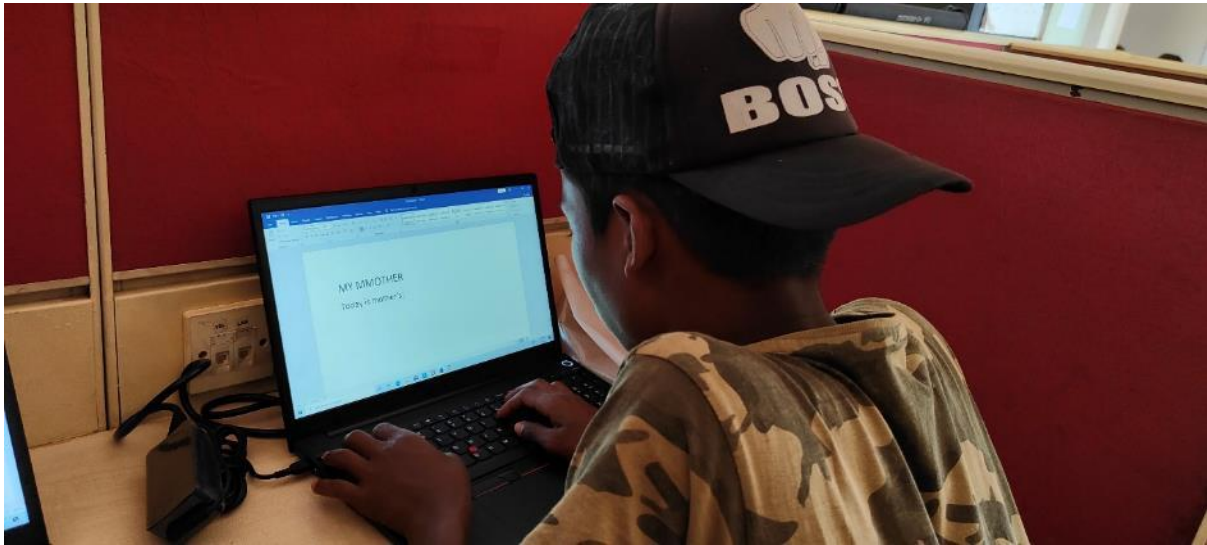

Social Science

In Social Science, there is 3 subjects - History, Geography and Civics. I have already

completed Geography and now I am doing History with my friends - and I have also done the tests for some chapters. I am doing the 1st book of NIOS. In History, some chapters are easy to understand but in Geography I felt that some chapters were difficult to understand.

Computers

I like do data entry because in class we use computers. In data entry, we have finished 6 chapters - basics of computers, formatting, mail merge, operating system, etc. Now we are doing the 7th chapter. I enjoy doing data entry in computer class.

Celebrations

On 5th July, I did a drama called "Ouch!". Everybody liked our play and I also saw other programmes.

On Rath Yatra, I was a *pujari* and I also played *band-baaja* with my friends before bringing the *rath*. Then we pulled the *rath* from the school to the hostel. On Teachers' Day, I saw a dance performed by didis.

On 15th August, we did a drama about Sri Aurobindo. From 5th to 10th, we did many activities like speech, painting, essay writing, etc. I also made a Ganesh statue.

Home Science

Gupto is going to appear for his 10th class exam in October. He is working hard for it. He is now a little serious about his studies. He has

completed his syllabus and now he is revising. He is giving the test of two chapters. He needs to work harder for securing good marks, and he is trying to do his best. He is clear about most of the chapters, but he is not clear in some chapters like fibre to fabric, fabric finishes and communicable and lifestyle diseases. When didi is explaining, he listens attentively and also asks questions when he doesn't understand. But he needs to concentrate on his studies.
