

KARTIK MUDULI

2021-22

DOB- 29th October'14

MATH:

Kartik takes interest in doing math. He has improved in counting and calculation. He can do forward and backward counting till 100. He can mentally add and subtract within 20. He can arrange the numbers till 100 in ascending and descending order.

His concept of place value is clear only till hundreds place. He can write the numbers till 100. He can mentally solve the basic number problems with a little help.

PROJECT: Kartik learnt how to draw pictures of the animals. He helped his friends in making an animal chart. He learnt the names of the animals, their babies, and their habitats. His favourite animal is

Horse because it runs very fast. He learnt the parts of animals' body with interest. He made a fox with clay and imitated the sound of the howling of a fox.

ENGLISH:

Kartik tries to speak in English. He knows English alphabets and their sounds. She is a very shy boy and speaks very softly. Now he is learning to recognise the letters of his name and different words starting with these letters. He is interested in learning new things but

gets distracted with his friends. He likes to sing songs

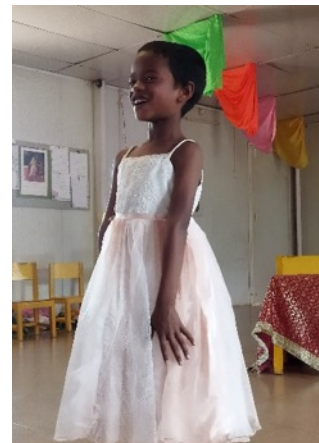

of Karadi rhymes and sings them well. He listens very attentively. he likes animals' tales very much. He can speak in phrases and is interested in communicating in English with his group mates.

In the drama (country mouse and town mouse), he was very good but hesitated to tell the dialogues and his voice was very soft.

HINDI:

Kartik is intelligent. He listens to stories very attentively and can answer the questions asked. He can narrate stories and create his own stories but is afraid telling them in front of all the children. He gets nervous while speaking, then speaks very softly. Kartik tries his best. He has learnt the vowels of the Hindi alphabets and is able to recognise the letters very well. He can identify the letters and also the sound associated with the letter. He can make sentences using the words that are given.

ART & CRAFT:

In art class Kartik talks a lot with children who are sitting beside him. He always tries to make his drawings better and asks if it is good or not. He pays attention to what is being told.

GAMES:

He is one of the younger children in Joy group, so his physical strength is the same as the ones older than him. While walking and playing, he tends to fall. He enjoys all games. He likes to play in the sand pit. He likes to play all fun games. He started participating in Yogasana. He does different yogasana with music.
