

# Manya Gouda

**DOB-20-Oct-09**

## Report for 2022-23 (first term)

My name is Manya and I am 12 years old.

### *English*

In the English class, I am doing grammar. We're studying the 5<sup>th</sup> class book in the group and I am doing the 3<sup>rd</sup> book in comprehension. I have read a few books like "Grimms Fairy", "Tarangini", etc. When we do group reading, I read very slowly, and I find difficulty in reading big words. Sometimes, we go for free reading to the library, and I like it. In dictation, I make lots of spelling errors because I can't hear properly.

### *Hindi*

I am studying the 6<sup>th</sup> class book in Hindi and following "Basant-bhag-1" book. When we finish a chapter, we give the test for the chapter, and then we go to the next chapter. We also go to the library to do free reading. I secure good marks in the test. But in the poem test, I could not do the *prasang* and *vyakhya*. When I am not able to do well, it is because I do not pay attention in the class when Didi teaches me. When Didi gives dictation, I am not able to write some of the words. But I try my best in Hindi. On 5<sup>th</sup> July, we had done a play on God and I was the queen. I liked my role very much.

### *Odia*

In the Odia class, we read, and we take dictation. Sometimes, Papaji teaches us songs and sometimes he tells us a story. We read some books and we do plays in Odia.

## *Mathematics*

In Maths, I am doing the 6<sup>th</sup> class book. I am doing the 2<sup>nd</sup> chapter of fractions and multiples. I completed this when I was doing the 5<sup>th</sup> book, but I was not able to do the question bank then. I would take a lot of time to solve some of the questions. I also talk a lot with my friends. I like to do Maths, but I don't give my best to be good at it.

## *Science*

In the Science class, we are doing the 7<sup>th</sup> class book. We have done many experiments like shadow drawing, and we read about shadows. We have also done experiments of the light, mirror, and electricity chapters and we have read many things about them. Before the chapter on motion, we had done an experiment of a balloon - inside the balloon, we had filled hydrogen gas and after that we left the balloon in the sky, and it flew off. In the motion chapter, we are now doing force and speed. And now we are also solving numerical problems.

## *Social Science*

I am doing the book of 7<sup>th</sup> of Social Science. In this book, I have finished studying History. Before the school trip, we had done a few chapters in Geography like our environment - physical environment, air, etc. We also read many things about plants, forests etc. I used to give the tests, but I was not able to secure good marks. Some chapters are tough for me. We watch short videos related to the chapters we study. Recently we watched the transportations of goods by railways and ships. The videos were extremely interesting. I learnt many things from it. In Civics I am learning about the State Government. I memorized all the districts of Odisha.

### *Computers*

In the computer class, we do typing, and when Bhaiya tells us some time to do painting, we do it on the computer with Lalu bhaiya.

### *Music*

We are doing music class with Anuradha didi. Anuratha didi teaches us songs and how to play the harmonium. We write down the songs and the raags in our notebook.

### *Art*

In the art class we used to do drawing. Nowadays, we make some hanging things and we also do painting, shading, and drawing.

But we are not able to make anything and we talk a lot.

### *Dance*

In the dance class, we learn many dances. Denis bhaiya had come and taught us new dances.

### *Yoga*

In the morning, I go for yoga at 6:00 AM, but sometimes I wake up late. We do *Suryanamaskar* and many other asanas.

### *Games*

In games time, first we do running and then we do some exercises. Then we play football, base kick ball,

and fun games. I do not like to play football because we play it every day. I like to play kabaddi on rainy days.

## *Shramdaan*

In the shramdaan time, we do toilet cleaning, gardening, hostel cleaning, school cleaning, etc. I like to do school cleaning because I like to sweep the area and to mop the floor. I also like to do toilet cleaning - we clean the bathrooms and sweep the surrounding area. On rainy days I don't like to do gardening because everything gets very muddy.

## *Trip to South India*

On 17<sup>th</sup> August, we had started from Kechla for the trip. We had first stayed in Simhachalam at night and in the morning, we had gone to the Simhachalam *Math* Temple by staircase and after that we had come down to catch the train.

Kanyakumari: I liked Kanyakumari. It is a very beautiful and clean place. In Kanyakumari, we had gone to see the sunrise. I liked boating in the sea. We went to the Eco park and had fun playing there.

Madurai:  
In  
Madurai,  
we went  
to

Gandhiji's Memorial,  
and we saw the things  
belonging to him. In  
the temple, we saw an  
elephant. We stayed in  
a hospital in Madurai.

Rameswaram: In Rameswaram, we had gone to Dhanushkoti - we had gone there to see the place about Shri Ram and we saw the stone of Ram floating in the water. We had gone to see the house of A.P.J Abdul Kalam and know more about him.

Pondicherry: In Pondicherry, we saw the samadhi of Sri Aurobindo and The Mother. We saw the place from where The Mother would give blessing to devotees. We had also gone to see the Playground. Afterwards, we had gone to the sea beach where we roamed around.

Finally, we came back to Kechla.
