

# Vijay Krisani

DOB- 8<sup>th</sup> August 2008

Attendance- 183 out of 183 days

Report for 2023-24 (First Term)

## Introduction

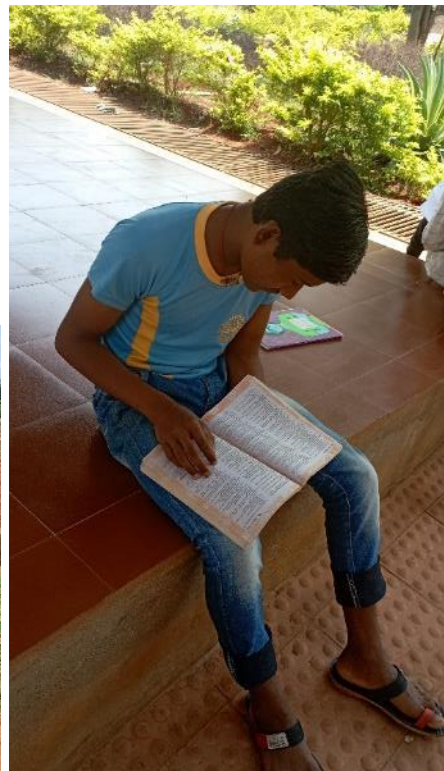

My name is Vijay Krisani, and I consistently attend school regularly. Despite having exams approaching, I always participate as an audience in every programme. Whenever there is grand Shramdan in the school, I sincerely take part in it. In the next couple of months, I will be appearing for my class 10<sup>th</sup> exams, covering 5 papers: painting, history, English, Hindi, and home science.

## Painting

I have a passion for painting, and I truly enjoy the process. My preference is drawing animal structures. I learnt painting from Ramesh Bhai, who corrected me during my practise. The theoretical aspect was covered with Pranjal Bhaiya. After completing the syllabus, I answered questions from the book and revised for the upcoming November exam. If I found certain questions challenging, I sought help from my friends.

revised for the upcoming November exam. If I found certain questions challenging, I sought help from my friends.

## History

I studied history under various teachers. After finishing the syllabus, I answered questions from all the chapters daily and had my notebook checked. If I faced difficulties in solving questions, I sought assistance from the teachers. Later, I independently studied the chapters and revised the syllabus for the October exam. Despite occasional boredom

in class, I remained attentive.

## English

I enjoy solving grammar and answering questions in English class. I have completed the syllabus and all the question answers from the book. When teachers presented questions to me, I promptly solved them. Though I find grammar challenging, I make an effort to solve it and seek help from the teachers. My exam is scheduled for October.

## Hindi

I have completed the entire Hindi syllabus and answered all the questions.

However, I encountered difficulties in solving grammatical

problems, but Manisha Didi assisted me in overcoming these challenges. I find solving

questions from the books easier. I revised and studied diligently for my Hindi exam, scheduled for October.

## Home Science

While studying home science with Kamli Didi, I enjoyed practicals. After completing the theoretical part with Kamli Didi, I answered questions and had my notebook checked. Following this, I began revising for my exams, scheduled for November.
