

Parul Krisani

DOB- 12-Jan-10

Report for 2022-23 (first term)

My name is Parul Krisani. My age is 13 years. I study in Auro-Mira Vidya Mandir. I love my school.

English

In English class, we learn about sentences, nouns, verbs, articles, pronouns, adjective, adverbs, proposition, conjunction, using language and comprehension. I am going to complete studying my book as I have covered seven chapters and only two chapters are left. I have finished reading "Taragini" and now I am reading funny story.

Hindi

Currently, I am studying the 6th class book of "Basant bhag 1". I like to do the question-answers from the book. The chapters that I have completed are "Ticket Album", "Jhansi ki Rani" etc. I have also given a test. Sometimes Didi tells us to write a poem about our mother, family, animal, water, and myself. I am doing the 5th class book of "Rimjhim". I have understood some basic grammar in Hindi. I can read properly but sometimes I am confused with the words; I have trouble speaking some letters and words. But I can speak Hindi nicely and I will improve more. I secured 41 marks out of 65. On the 5th of July programme, I was a narrator.

Odia

My teachers are Papaji (Ramesh Sahu) and Anuradha didi. They teach us songs, reading books, drama and sometime Didi tells us a story. Didi gives us dictation and we do question- answers. On August 15th, we sang an Odia song.

Mathematics

I have completed studying the class 6th book on 10th August. I am now doing revision. When we were giving the test of each chapter, I was trying my best. From the 6th class book, I studied all the

chapters and I learnt many new things. I have learnt number system, factors and multiples, whole numbers, integers, fractions, simplification, decimals, algebraic expressions, linear equation in one variable, ratio, proportion and unitary method, line segments, rays and lines, parallel lines, angles and their measurement, constructions, polygons, triangles, quadrilaterals, circles, three-dimensional and two-dimensional shapes, reflection, symmetry, concept of perimeter and area, etc. I found simplification and algebraic expressions difficult. Now I am trying my best to improve - sometimes, I don't concentrate when Bhaiya is teaching the chapters.

Science

I have covered many chapters in Science, like light and reflection, acids, bases and salts, and electricity. I am currently doing the 'motion and time' chapter. We did many experiments and we also made kaleidoscope and got to

know the difference between convex mirror, concave mirror, real image, virtual image, etc. We did experiments with battery and cells too. sometimes, when Didi is teaching us the chapters, I cannot concentrate but normally I do concentrate in the class. When Didi asks question, I am able to give the answers. In the tests, I obtained low marks because I didn't concentrate in the class.

Social Science

In Social Science class, we are doing the class 7th book. We have completed the History portion and it was very easy for me to understand. I like to do the question and answers of History. Now we are studying Geography, in which we're doing the 'human environment' chapter. We are going to start the question-answers in Geography soon, as we have already covered 12 chapters. In Civics, we are doing

the 'State government' chapter and we have completed 4 chapters. I don't like Civics because I can't relate to it. To understand the chapters better, sometimes we see videos from YouTube.

Computers

In computers, we do typing, and sometime we do drawing. I like to do typing. Lalu bhaiya teaches us computers.

Art

My art teachers are Brishti didi and Suparna didi. In art class, we make drawing, shading and hanging crafts. We also do clay modelling.

Music

In music class, I learn to play the flute every Tuesday. We are learning how to play songs and we do the exercises, when Didi tells us to practise.

Dance

My dance teachers are Suparna didi and Gauri didi. When Suparna didi teaches us, then I like to learn the dance steps. Now Didi is teaching us monkey dance and modern dance. When Denis bhaiya had come, he taught us Dura dance. I love to do all dances that Didi teaches us.

Yogasan

I go for yogasan at 6.00 AM and we do it till 6:30 AM. We do *suryanamaskar*, tree pose, *Nataraj* pose, headstand etc. Sometimes, I go for yogasan but when my kitchen duty turn comes, then I can't go for yogasan.

Games

I like to play basketball and football. Before playing any game, we do exercises and running. On rainy days, I don't like to play but I have to go because it is compulsory and it is also good for our body.

Shramdaan

In *shramdaan*, I do kitchen work, toilet cleaning, hostel cleaning, gardening and school cleaning. Didis are there to guide us. I like to do school cleaning the most. In gardening, I do digging, give water to the plants and we also take out weeds.

Trip to South India

On 17th of August, we started on a trip to south India from Kechla. First, from Paliba station, we went to Simhachalam. In Simhachalam, we saw the Vishnu temple. Then we went to Kanyakumari.

There, we saw the Vivekananda memorial and we also saw Ma Parvati's footprints on stone. After that, we went to drink coconut water. In the evening, we went to see the sunset and next morning, we went to see the sunrise. After Kanyakumari, we went to Madurai. In Madurai, we saw the Meenakshi temple. Then we travelled to Pondicherry. We saw the Matrimandir in Auroville. We also went to the sea beach, and I enjoyed playing in the sea. In Pondicherry, we stayed for six days. On the way back, we stayed in Simhachalam for one night. Next morning, we came to station at Paliba and then we came to Kechla.
