

Neeraj listens and does whatever is told. He has still not learnt to stay clean and tidy. For this he has to be pointed out multiple times, he is not keen on hygiene. His handwriting is also not neat, he is being extra practice for writing.

He is not so focused and so he takes time to grasp. But he keeps trying.

## ENGLISH LANGUAGE

Neeraj has improved on his speaking skills and now speaks more often in English.

He is now able to read with more confidence with little prodding from the teacher.

He has a keen sense of grammar and is excited to solve exercises but doesn't fancy writing too much and that becomes a problem as his spellings are on the weaker side, therefore there is a slow improvement in that department.

## PROJECTS AND ACTIVITIES

Though distracted and naughty, Niraj is bright and obedient.

He is making good progress from being disinterested in reading, writing and even craft activities to successfully reading short books, learning new words, participating in class and impressively leading the younger Flower group through several games and activities on the sharing day.

## ENVIRONMENTAL SCIENCE

He is a good student but some time he is too distracted to study and also doesn't listen to the teacher.

## MATH

Neeraj is playful in nature. His attention is more on playing rather than doing Math.

To understand concepts he needs explanation with objects and pictures. He finds it difficult to calculate mentally.

Currently he is doing book 3. He is clear about addition, subtraction and multiplication. He needs to work more on division.

## HINDI LANGUAGE

Neeraj has developed a good pronunciation but he is slow in reading as he is still confused about matras.

He is being given extra classes to improve his reading and writing.

He makes lots of mistakes while writing, though he is good in speaking.

He regularly requires help of Didi while reading and writing. He is also given copy writing to improve his hand writing.

## ODIA LANGUAGE

Neeraj is disinterested and irregular for class. Many times he goes for a guava plucking or keeps playing during Odia class time. Because of which he has not progressed in Odia this term.

## Sports

Neeraj is energetic and loves doing exercises, especially sit ups.

Basketball is his favourite game. He plays others games also with lots of enthusiasm.

Neeraj doesn't mind any mix of team, he plays with girls and boys alike.
