

# Mohit Jani

**DOB-17-Jul-2008**

## Report for 2022-23 (first term)

My name is Mohit Jani. I study in Auro-Mira Vidya Mandir. I am studying in 10<sup>th</sup> class from NIOS.

### *Hindi*

We have completed the syllabus of both the books of class 10 of NIOS. I like to do Hindi class. Krishna didi from Delhi who was here for a small vacation, taught us Grammar. I

enjoyed studying from her. Poonam didi who was also from Delhi

and had come for a month, taught us spiritual things through stories along with studies. I can read and write well

in Hindi. In Hindi my handwriting is good. In the class we also do free reading sometimes for a while. In the class, I concentrate sometimes and sometimes don't. We have learnt writings such as paragraph writing, letter writing and essay writing.

### **English**

In English, we are studying from the 10<sup>th</sup> class book of NIOS. We read the stories and poems given and do the question and answers once we've understood the text. We also do the Grammar exercises given at the end of every chapter. I like to do questions and answers. We have completed the 1<sup>st</sup> book and have covered two chapters of 10<sup>th</sup> class of NIOS. In English class didi teaches us writing work also such as 'notice writing', 'report writing', 'letter writing', and 'paragraph writing'. Now we are giving tests on each chapter of the 1<sup>st</sup> book. I've scored good marks in some and average marks in the others. Other than studying from

the course book and doing writing works, we do free reading also once a week. I love doing free reading because we get to read interesting stories every week. I love to read comics and I also read them whenever I get a little time. Along with these we also read novels by issuing them from the library. One of the novels that I have read is 'Nagas'.

### **Mathematics**

In this period of April to September, I have completed almost the whole of 1<sup>st</sup> book of 10<sup>th</sup> class, NIOS with just one chapter of Instalment buying remaining. I have started the second book of NIOS 10<sup>th</sup> class. The chapters which I have completed from second book are Statistics and Mensuration. Now I am doing Geometry. The chapters where I need more practise and confidence are Mensuration and Geometry. I have to practise more word problems by solving them. When I am not able to solve some problem then I go to Bhaiya to understand. The chapters where I scored good mark are 'Percentage and its application', 'Linear equation' and 'Lines and angles'. In the chapter 'Quadrilaterals' I scored average marks and had to give a retest. After giving a retest, I was clearer in most of the concepts.

### **SCIENCE**

I like to do Science class. We have nearly completed the chemistry part of the 1<sup>st</sup> and 2<sup>nd</sup> book of NIOS 10<sup>th</sup> class. We have

done some chapters of Physics and also some chapters of Biology with Meeta didi. The chapters which didi taught us I

understood properly. In science, we did practical with Raghu Bhaiya on electrolysis, parallel series and circuit. In the class we have done many experiments such as how salts are formed and checked whether the substance is acid or base. In Physics class we did experiments such as how the rays are formed in concave lens and convex mirror.

### ***Social Science***

In social class we have almost completed the 2<sup>nd</sup> book of NIOS 10<sup>th</sup> class with 4 chapters of Geography remaining. All the

chapters of Civics and only two chapters of History are completed. I like to study Geography because I find it easy to understand and do the question and answers. In some chapters of civics I was unable to score good mark because I had not studied those chapters well. The chapter where I scored good marks was 'Transport and communication'.

### ***Gardening***

I do gardening once a week with my group. In gardening we do digging, we take out weeds from the garden, water plants. I enjoy doing gardening.

### ***Computer***

Once in a week we do computer class. In the computer class, we practise typing from typing master

and do painting. Sometimes we get to write paragraphs or stories in the word pad to practise typing.

## *Celebrations*

On 5<sup>th</sup> July which we celebrate as our school's birthday, my group had performed a play named 'Ouch'. I had played the role of 'Pandit Bhrashtacharya'. I memorised my dialogues, but was unable to say them in the proper way. I could have worked harder on the acting and speaking to

make the play more enjoyable. On 15<sup>th</sup> we did a play on Sri Aurobindo' life. I had played the role of a British inspector.
