Archita Krisani

- Archita comes to school regularly, but for some reason refuses to sit in the group. She spends time with the older group children or just follows Sangita didi to whichever group she goes to. She is exploring the school. This is not unusual here as all the children are from the same village. She is still very small and will get settled in her own time.

Archita Krisani

She is a sweet child. She needs special attention and care from elders. Whenever she comes to the group, she likes to do drawing. She has started making friendship with others. She does most of her work with concentration. She sings well. When she is free and open with somebody, she talks a lot in her village dialect.
