

BRISHTI KRISANI

Date of Birth- 24th December 2005

REPORT - 2022-2023 (First Term)

Introduction

My name is Brishti and I am 16 years old. I am a student of Class 12 in Auro-Mira Vidya Mandir in Kechla, Odisha. I am giving my Class 12 exam through the National Institute of Open Schooling (NIOS). I like to be neat and clean and always make sure that all my things are kept at their designated place. I eat whatever is cooked in the kitchen except for

porridge and mixed vegetables. Nevertheless, I do eat even these as I am aware that they are very nutritious and good for health. I like to read adventure and scary books. I also like to play basketball and love to do painting.

Painting

In the painting class, I practise drawing in my art notebook and on big sized art papers. At first when I was given such a big sheet, I was very nervous and scared. I tried to attempt the questions and answers and made

notes. I finished the whole book once with Pranjal bhaiya. Whenever I came across difficult words, I asked bhaiya and he would explain the meanings. I think the textbook was not as difficult as I had thought it would be.

Games

We start games in our school at 4:30pm every day. I take a full round of the field and exercise before games for warming up. I do many exercises like crunches, stretching exercises and also many types of running exercises. These also help me in keeping my body fit and healthy. I play basketball, football, volleyball and Frisbee but my favourite game is basketball. I get a lot of passes and also get to shoot. Sometimes, I am not able to take the rebound. I don't like to play football but I still have to play the game. Frisbee is something which I play occasionally.

Celebration

In my school, almost all the festivals are celebrated very nicely. The stage and the area of the pujas is decorated very beautifully. I love to decorate the stage and we all have a lot of fun while doing this for

all the different festivals with their related themes. I celebrated 15th August, Ganesh Puja, Teachers' Day and Raksha Bandhan. On 15th August I did a dance on a patriotic song while on the day of Raksha Bandhan, I took part in a small skit and the moral of this skit was that we

should try to avoid getting into bad company. I got the role of narrator which I really loved doing.

Shramdan

In Shramdan, I am in Group C. We do all types of activities such as toilet cleaning, working in the kitchen, gardening, hostel cleaning and school cleaning. I like to do the kitchen work and in that I like to cut all vegetables except papaya, kundru (Ivy gourd) and aubergine. During gardening, I help in watering the plants, digging the soil to take out weeds so that we can grow more vegetables and flowers. In School and hostel cleaning, I sweep the verandah and staircase and pick up the garbage which includes mostly plastics strewn here and there.
