

Jagdish Krisani

DOB- 5th May 2008

Jagdish stays clean and keeps his books properly in the Group. He likes being naughty. He does not speak clearly and needs to put an effort to stop stammering. He needs to work hard in academics and should ask to clear his doubts. He participates in activities but he has to be patient and complete them. He has problem in communicating.

HINDI

He has completed 5th book of bhasha drishti and question answers. He has done antonyms, synonyms and making sentences with words. He has done 4th class grammar book and he takes time to memorised. He likes writing instead of oral question answers. We always ask him to speak clearly but he never speaks in a proper way and sounds are not clear. He has started 6th class textbook Basant bhag-1.

MATHS

Jagdish is doing 5th book in mathematics. He has completed LCM, HCF and prime factorisation but can't do confidently. While solving word problems he reads and tries to find which operations will be required. His concepts of measurement and decimal are quite clear.

ENGLISH

He has written the English report on his own.

The books that I have issued from the library and read are Panchatantra stories. While reading in the group I've read- Kunnu the cub and Charlie and the chocolate factory. I don't read very fast. My reading speed is slow but not too slow. When I read I am very careful because I'm not so confident. Whenever there is a difficult word to pronounce then I can pronounce it. My handwriting is fine. When didi gives me any questions to do then I do it but sometimes I feel lazy and don't like to do the answers so I copy from my friends. In English class most of the times I speak in Hindi but when I remember that I have to speak in English then again I speak in English.

COMPUTER

He likes to draw in paint. He enjoys typing games and typing stories in MS word.

ARTS

Jagdish is good in crafts. He is very good in doing thread work like embroidery. Sometimes he is very slow. He likes to draw cartoons and funny pictures from the book and he is good in these. He is not regular in the class.

Social studies

Jagdish is a very different child. He finds reading and writing a waste of time. To make him finish the work we have to sit with him. He hardly completes his homework and when we say a word he gets upset. Though he is trying to learn and memorise, he is not serious. He always avoids giving his notebook for checking.

SCIENCE

He stays quiet in the class. Whenever asked a question, he is shy to answer

and when he does, his answers are not clear. He writes very little and pays very little attention in the class. But when there is an experiment or an activity done in the class, he is excited. During the body system he had selected respiratory system for presentation. He made a chart on respiratory system and made a presentation to the Humility group. He delivered the presentation without confidence. During the water topic he had taken an activity based on capillary action. He had taken a thread and dipped it in coloured water.

ANDAMAN

I went to Andaman it was enjoyable.

GAMES

He is very good at football. He prefers playing football to basketball. He loves to play in midfield position. He passes the ball to his friends. He kicks the ball very forcefully and most of the time scores goals. He is a very good player. Everyone wants him in their team.

PROJECT With Ruth didi

I drew the map of Australia.

I learnt the rhyme “Crocodile”.

I also went for walking.

Next day, I played language games.
