

Bhuvan Pukia

ENGLISH:

I have completed the NIOS syllabus and I am now preparing for the board examination of Class 10. Although I can speak English fluently but sometimes, I get stuck because I am not able to express myself well. And then I switch over to the language I am comfortable with. I have completed all the questions of the textbook. I can write very fast but then I tend to make mistakes. My handwriting also suffers. So, I really need to improve my reading and handwriting and also learn to write faster.

HINDI:

I have completed both the books, and I have also solved some tests given to me by my teacher. I did very well in the tests because I had memorized the chapters very well.

The chapters which I have done are:-

- ❖ Andher Nagari
- ❖ Bahadur
- ❖ Shatranj ke khiladi
- ❖ Gillu
- ❖ Happy prince and etc.

I have completed all the chapters of both the books. I have also learnt essay writing, story writing, poem writing and notes writing. I have also done the tests of essay writing, story writing and etc. I need to improve a lot in writing the notes and in reading texts. I need to improve my writing. Reading text is a bit of a problem. I can speak very fast.

DATA ENTRY OPERATIONS:

I have completed most of the chapters and given the tests too. I did quite well in the tests and surprisingly I knew most of the questions. My typing speed is quite good.. I have also done the Microsoft Office, Excel, Power Point and Word Office.

HOME SCIENCE:

I have completed the chapters with Gauri didi, Sulochana didi and Pranjal Bhaiya. I completed first 6 chapters of the book with Sulochana didi and the rest of them with Gauri didi and Pranjal Bhaiya. Pranjal Bhaiya taught me most of the chapters. Gauri didi gave me tests. I did well in most of the chapters while in some, my marks were not so good. I have also done some practicals related to cooking with Sulochana didi. I also tried the deep frying and the shallow frying method of cooking.

SOCIAL SCIENCE:

I have completed the History and Political Science sections with Pranjal Bhaiya. I have given tests in the class and got mixed results. The Geography part is still remaining. The chapters that we have done in Geography are: climate and distribution of the rainfall. The remaining chapters are still pending. I find it extremely difficult to memorize the main points of the chapters and when I do memorize, I sometimes do not remember them while writing in tests.

SHRAMDAN:

I help in cleaning the toilets, gardening, music and kitchen. I go for yogasana in the morning at 6 AM. I like to do Shramdan in the

kitchen and the garden. I like to cook and learn the various ways of cooking. In gardening, I like to do digging because I like to do work that makes me very tired.

MUSIC:

I play the keyboard and flute. I like playing both of these items because I have to move my fingers and I like the play of the fingers on the two instruments. I like to play the folk songs of my village and Hindi songs both on the Keyboard and the flute. I have not practiced since I have started preparing for the board exam. When I start playing again, I realize that my fingers will hurt from excessive use.

FESTIVALS:

The cultural programs that we have for the special days and festivals give me an opportunity to do what I like the most; and that is acting. Consequently, I have acted in a number of English, Hindi and Odia plays and skits. I love acting. On Janmashtami, I took part in a group song. I could not participate in Christmas celebrations because I was preparing for my Board exams. We also really enjoyed ourselves on Holi. The teachers had put up food stalls for us and we really had a good **time** buying from these stalls and eating very good food.

SPORTS:

I play all three field games: football, volley ball and basketball plus some minor games. But my favorite game is Football and I like to play it because it is a fast-moving game and we are continuously on the run, passing the ball and scoring goals. And I like to run because I want to exercise and lose some weight and remain thin.

In basketball, I am good at shooting and dribbling. But in Volley Ball, I am more or less stationery, and I do not like it that much.

TRIP TO ANDAMAN AND NICOBAR ISLANDS:

We had gone to the Andaman and Nicobar Islands for the annual school trip. We started from Kechla on the 20th of February. Our first stop was Shimachalam. The next morning, we went to visit the ancient Narsimha temple and to reach the temple, we had to climb 1100 steps. The old idols in the temple are still beautiful.

We were to board the ship the same day. We reached the port well in time. The ship departed in the night. It was a 3-day voyage. We went around the decks and saw many fishes in the on the first day. We went to see the Bridge of the ship. We reached Port Blair and went to the Teacher's Training Centre where we were to stay.

On the first day we went to the Cellular Jail. We saw how badly the prisoners were treated and the condition in which they were being kept. We also saw the list of the names of the prisoners who had been imprisoned there. There was a museum where we could see the paintings of the freedom fighters. We again went back to the Jail

to see a Sound and Light Show in the evening.

The other places we visited were: - Fish Aquarium, Anthropological Museum, Naval Museum, Marina Park, Gandhi Park, Radha Nagar Beach and the old Saw Mill. I enjoyed visiting these places because I gained a lot of knowledge and information about these places, their culture, and their habits.

On March 2, we started from there. I really liked our travel on the ship. boarded the ship and then came back,

it again took three days. I like the trip because I had to go on the ship.
