

Niraj Muduli

I am Niraj. I study in Auro-Mira Vidya Mandir. My date of birth is 11th September 2005. I like to study all the subjects. I don't understand the concepts easily. It also takes a lot of time for me to remember things. I am not very sincere in the class. I feel bored in the class when the same subjects were repeated many times. I am interested only in the things I understand easily. My problem is I forget the subjects quickly. Sometimes I am excited to learn if the chapter is new and easy. I like to play and always ready to do any work in the hostel. I am very good at gardening and picking up heavy things.

ANDAMAN TRIP

On 6th March at noon, I left for Paliba station and took a train to Simhachalam. We reached Simhachalam at midnight. In the

morning we went to Simhachalam temple. There were 1100 steps we had to climb. We roamed around and saw the place. It was very well built. We went inside the temple. We took a few photographs. After having lunch we came back to our dormitory and got ready to leave for the port. After check-in we sat in the ship. It was a very big ship and there were many people who were traveling to Andaman in the same ship. We saw different things in the ship. We spent most of the time on the deck. I saw many Jellyfish. I saw how the tugboats pushed and pulled the ship. The food was amazing in the ship. In my cabin there were six beds and the cabin was nice. The next day when I

went out, there was only water all-around. I also saw many flying fish and dolphins. I was really surprised when I saw more than hundred dolphins at the same time, uncountable flying fish and turtles. I saw the control room of the ship. I saw the radar and I learnt about its use. I also saw the helipad. We reached Port Blair on the 10th in the afternoon at 3 o'clock. A bus was arranged and it took us to different places. We stayed in the teacher training centre. Nobody was living there. The food would come from outside every day. On the first day we went to the Cellular Jail. We

saw the jail where the British kept the prisoners and would treat them very badly. We saw the workshop, the oil extracting machine, the jute cloth used by the freedom fighters and a few utensils. We went to the central tower and the remaining three wings. We also read the names of the prisoners who were in the jail. We saw Mount Harriet from the tower. In the evening we went to see the sound and light show. It was nice. We went to the science museum and watched 3D video on turtles. We saw the aircraft model and ships too. On 12th March at 6 o'clock we went to Baratang by bus. The bus stopped at the jarawa protected area and entered into the jarawa territory in a convoy. On the way we saw some Jarawas. They were looking very different. By a ferry we went to visit the limestone cave. We went by a speedboat and saw the figure of jellyfish, paw of tiger, crocodile, lotus, elephant head and many shapes made naturally in limestone. We came back by bus. Our bus ran as fast as a rocket.

On 13th we went to Havelock. I did scuba diving and I saw many fish, a broken motor bike and corals. We went to the Radhanagar beach and I swam in the salty sea water.

On 13th we went to Havelock. I did scuba diving and I saw many fish, a broken motor bike and corals. We went to the Radhanagar beach and I swam in the salty sea water.

On 14th we went to suicide point early in the morning. I saw the sun rise and the point from where the British used to throw the prisoners. After that we went to North Bay and Ross Island. I saw the old structures of the British period.

On 15th we went to the anthropological museum. Then we went to Nature park and interpretation centre. I saw the butterfly museum and walked around the park. Then we visited the government saw mill at Chatham. There we saw how they cut wood and how they make things in wood. We also saw the things made of wood. There was a real dolphin skeleton. I got to know about different trees and the strongest woods. I also saw the bomb pit and the Japanese bunker.

On 16th we walked to Gandhi Park. I played there and took some photos. The park was beautiful and I felt like spending more time there.

Before leaving for the ship, I went to the washroom to fresh up and I felt like not coming out because it was very hot outside. I was sweating right after my bath. We left Port Blair on 16th in the same ship we had gone by.

We reached Calcutta on 20th and spent a night at Maharashtra Niwas. The next day we went to Future Foudation School. I got to know about Calcutta from Ranjan Bhaiya and I watched the movie Bose-The Forgotten Hero and Bahubali. We went to the railway station and boarded the train. We reached Koraput Station 22nd night and we reached Kechla by midnight.

HOME SCIENCE

In Home Science I have completed the syllabus with my teacher and given many tests. Now I am solving my assignment that has to be submitted to NIOS and am also revising. I like my class and I can understand all the things. But sometimes I don't pay attention and can't do the thing right and have to repeat everything.

HINDI

I like to study Hindi but sometimes I don't understand and sit down and just watch everybody studying. Sometimes I feel interested and study nicely. Sometimes I get excitement in what is being taught. I also like to read Hindi books. I like the adventure stories and ghost stories. I could not remember grammar nicely but now I have improved. Sometimes we have group reading of class 10 book.

ENGLISH

I like to study English.

Some of the books I read this year are

- Many Hardy Boys
- The Coral Island
- I like to read haunted stories, adventure stories and funny stories.

In the class we have group reading and we study grammar with our teacher.

We have learnt :

Nouns
Pronouns
Adjectives
Tenses
Letter writing
And many more.

Sometimes I cannot understand what is being taught and I feel bored and put my head on the table. Sometimes I can understand and complete the work quickly. When I feel interested, I study nicely.

DATA ENTRY

I like to do data entry. It is interesting and sometimes I feel bored and don't study, instead do painting or something else. When I feel interested, I ask to my teacher, what I should do or ask him to teach me. I have covered some chapters of the book. I am revising so that I can remember it.

YOGASANA

I like to do yoga. I used to go everyday and lead the yoga. Sometimes I do not go and sleep in the room and get

scolding from the yoga teacher. After that I go nicely and obey the teacher. The yoga class is from 6 to 6:30 am. We have learnt many postures of yoga.

GAMES

I like to play games like Football, Basketball, Volleyball, minor games, etc. Before playing we exercise and take 5 rounds of the field . We play Football on three days of the week. We often fix the teams and change after many days. Sometimes arguments happen but we control and stop it. My favourite game is Football. I like to play Basketball also but not as much because I get hurt. I feel bored in Basketball and cannot run. In

football I can run fast and as much as I want. I also like the other games.

SOCIAL SCIENCE

I like to study Social Science because there are many interesting things to study. We study about the past and about the world. I like what had happened in the past and know learn it. I like History the most. We have nearly completed the syllabus of 10th and we still have some chapters of book 2. We are being dictated notes. We can understand everything when we have notes. I have to improve my handwriting and have to read more. I like to study but sometimes I feel bored and at other times I feel nice and interested. I learn all the things I can remember easily. But I cannot write what I want to write. I feel confused and do not write properly.

FOOD

I like my food very much. On the trip I ate till my head as I liked the food there. In Kechla the vegetable are very nice. I don't like the food when I have over eaten. If I feel hungry, I cannot control myself and sit down and eat so much that I don't have energy to get up.
