DOB- 21-Apr-11

Report for 2022-23 (first term)

Science

I'm studying Science of class 7. I like the Science class, because Ambika didi and Jagat bhaiya make us do many experiments. When we learn doing experiments, we can understand better and learn easily. We have done experiments of balloons and solar cooker. We have completed the chapters on electricity, types of forces, acid, bases and salts and zoology. Now we are learning about motion. I like the Science class.

Social Science

We are studying Social Science of class 7th now. We have completed all the chapters of History. I enjoy the Social Science class but sometimes, when I feel less interested, I feel bored. In tests, I score good marks. When we do questions and answers after completing each chapter, I finish them quickly. When studying History, we would read 'Amar Chitra Kathas' on some days which would help us learn about our past in detail and we would understand better. We also watched a movie on Prithviraj Chauhan to learn more about Prithviraj Chauhan. We are going to complete the chapters of Geography too. In geography, I find difficulty in understanding some questions. In tests, I score average marks. I try to improve and do better in the retests, after we do the test corrections. In Social Science class, I concentrate when didi teaches.

When we were learning Transport and Communication, didi showed us how ships carry cargo and also about the Indian railways carrying goods. We saw and understood how Satellite works and how it is launched. We also saw how bridges are constructed and how China is building their Mega Projects, like dams and bridges. Now I am learning about the State Governments in Civics. In the first chapter, I learnt about the districts of Odisha and the Legislative Assembly.

Stay at Home

While, my friends were out for a trip to South India, I stayed at home. During the stay, I went to graze cows, played marbles and Ludo and also went for fishing in the reservoir on some days. When I went to graze cows, then I would search for mushrooms. After returning after grazing the cows, I helped my mother in cooking. In the evening, I would watch movies. I enjoyed my stay at home.

English

In English class, we do grammar, free reading and group reading and sometimes we learn songs and poems. Recently, we learnt the poem 'Who' written by Sri Aurobindo. In grammar, I am doing from the 5th class book of 'Good Grammar'. I enjoy doing free reading during the class. When we get dictations, I write in a

good handwriting and I try to write correcting the previous spelling errors. We also watch English movies once a month during the class time. We read unseen passages and stories from the 6th class book and do the question and answers. In the class, I like to study Grammar the most. We study English with Sangita didi, Bikanti didi, and Bhavna didi. We issue books from the library and read. Some of the books that I have read are 'Tales of India', 'Sunset of the Saber tooth', 'The Phoenix of Destiny'.

Hindi

I have completed the 5th class book of 'Rimjhim' and am currently revising for the tests. I have to give tests on each chapter before giving the test on the whole book. I have already given tests on some chapters. In some tests I scored good marks and in some, I scored average marks.

When didi gives us dictation, I love to write, but make mistakes in the matras of the words. I face many problems in Hindi because I am unable to understand the meaning of the words. I am trying my best to improve in reading, writing and understanding. During the class, we learnt a play name 'Vidyarthi jeevan' (Student life) to perform on our School's birthday (5th July). In the play, I played the leading role, of a boy named 'Satyakaam'. I gave my best in the performance.

Music

We had music class on every Monday but now it has changed to Tuesdays. In music, I learnt vocal from Anuradha didi. I have learnt the sargams and a few exercises of it. For the last few weeks, I've been doing gardening at the time of music class, as I was more interested in learning gardening.

Art

I did drawing, and learnt many craft work such as paper flowers, quilling, origami, decors for hanging, etc. Suparna didi and Brishti didi took our art classes. I enjoyed the classes.

Games

We play many types of games such as football, basketball, volleyball and fun games. My favourite game is football. While playing football, I usually play as a forward. Before playing, we do exercises and running and I do them properly.

Shramdan(Work Offering)

I did shramdaan every morning. I did various activities on different days with my group. The day I had kitchen turn, I enjoyed cutting potatoes and tomatoes and fetch water for the filter. In toilet cleaning, I would clean the toilets and washbasins. The days I had hostel cleaning, I would mop the floor of the dining area and sweep the verandahs. In gardening, I would take out weeds, planted flowers and vegetables, watered them and did digging of the soil to make it softer and ready for planting new saplings. In school cleaning, I would sweep the pathways of the school campus and mopped the classrooms. My favourite shramdaan was school cleaning.

Odia

I study Odia with Papaji and Anuradha didi. I find it difficult to understand it, therefore I need to work hard and learn it properly. I like to study Odia with Papaji.
