

Surendra Kamar

DOB- 25th April 2008

Surendra tries to pay attention in the class but tends to get distracted. He is more excited in doing experiments. He is a little aggressive. He is very fidgety. Surendra is a little naughty. He often disturbs his friends and needs to concentrate more in his studies.

SCIENCE

During the **human system** topic he had chosen to take skeleton system for presentation, together with Rukmani. During the presentation he only spoke two lines and was not able to express himself.

He chose to take **solidification of water** in the **water** topic. He kept water in the refrigerator to solidify. The next day the water had turned into ice and had risen above the glass. He presented his activity well and the Humility group children enjoyed listening to him.

In the flower topic he chose to take the flower **hibiscus**. He wrote a poem and made a beautiful drawing of it.

ENGLISH (self-report)

I have read many books like snow-white pigeon, a hot water, Fantastic Mr. fox, who was ben franklin, the war of the worlds and stories of magic ponies. During group reading I have read Charlie and the chocolate factory, George and the marvellous medicine and Kunnu the cub. The one that I liked the most is Charlie and the chocolate factory. My reading speed is not so fast. I can understand the stories in the comprehension book. I do questions and answers nicely and

beautifully. While reading my pronunciation is not very good. When there is a topic given to me then I can't think very much and write it myself. My handwriting is fine. I can find out the meanings very fast but sometime I don't get it so I copy it from my friends. In English class I don't always speak in English but sometimes I do speak in English. My favourite language game is picturika.

Social studies

When some work is given then he takes a lot of time in finishing it. Writing and reading is boring for him but to make some chart, drawing or any model he is very interested. He needs to improve his reading and understanding.

HINDI

He understands stories by reading himself and does question answer from it. In library time he likes to read warrior's stories and gods and goddess stories. He is able to write on any topic 50 to 100 words.

He has completed 5th class textbook bhasha drishti and 4th class grammar book. He takes time to memorise. He is a bit slow at creative writing, even if we explain it to him. Now he has started 6th class basant bhag 1.

Odiya

Surendra is a good boy. He can read with the help of the teacher.

COMPUTERS

Surendra likes to learn computers. He enjoys drawing different things in Paint. He likes to play typing games and enjoys typing stories in MS word.

PROJECTS (self report)

We took Didi to show the village and we drew the map of Australia.

Didi taught us songs and stories.

I enjoyed the map work.

ART

Surendra is very good in thread work. He does embroidery very beautifully and neatly. He has a lot of interest in doing embroidery. He needs to be punctual and work harder.

TABLA

Surendra plays tabla nicely. He practises with his friends. He is now learning teen-taal. He has to remember the kayadas given.

GAMES

He is good at football. He coordinates with his team and makes sure that all players are in their respective places. He knows the rules and follows them on the field while playing. He plays other games also like basketball, base-kickball, dodge ball, etc.

My sport day

I chose pyramids as my corner because for me balancing is easy.

My Andaman trip

We went to Andamans. It was enjoyable because I sat for the first time in a ship. I went to radha nagar beach, Marina Park, etc. We saw fishes like gold fish, tiger fish, goat fish, flying fish. We stayed in Port Blair. I liked the food because they were bringing paneer and halva. I liked Gandhi Park because we did boating. I dislike the Chidiya Tapu because there were few animals. Cellular jail was made by British. They used to bring Indians and they used to command them to work. In light and sound I felt very sad when I heard about Indians. The British used to beat them and tied them. In the science center we watched 3d show and we saw many tortoise, snake fish etc. When we were coming back to Kechla, I was thinking that I will not go back to Kechela. I am grateful to people of Andaman who took care of us. I had an excellent and memorable trip.
