Report for 2022-23 (Second Term)

Science

I have finished class 7th book of Living Science and am now doing class 8th book. In class 8th I have finished four chapters- crop production, micro-organisms, reproduction, and reaching the age of adolescence. Micro-organism chapter was very easy for me because I had learnt about it in class 7th also. I like studying science because I learn many new things by doing many activities and experiments. We have done experiments with prism. Sometimes I don't pay attention in the class because I like to peep outside the window and see what is going on outside. After finishing each chapter, I solve the questions given in the book. Whatever I don't understand, I ask the teacher.

Mathematics

I study mathematics with Basant bhaiya. I am a little poor in mathematics, and I am not so interested in it. I feel bad when I solve the questions wrong and don't feel like doing it again and just waste time and start solving the next question. When bhaiya tells me to do it again, then I only I do. In tests I don't get good marks. I like talking to everybody in the class.

English

In English class I like doing grammar and taking dictation, and I don't like storytelling and writing.

I also don't like group reading because others read slowly and I feel bored, but I enjoy free reading. In the class I like peeping into other's notebooks and they get distracted. We read a lot of books in the class. Now we are reading a novel of Harry Potter. We also watch English movies at times. I must work hard and stop getting disturbed and distracting others.

Hindi

In Hindi class we do free reading, group reading, dictation, storytelling and grammar. My Hindi reading is better than my writing. I make a lot of mistakes while writing. Whenever I go to the library, I always like to pick up books with pictures in it. I have finished class 5th book of Rimjhim and am preparing for the whole book test. I will do my best. Whenever didi teaches us a song, I don't even pay attention and later on I can't even sing the song. I must focus to improve my handwriting.
